ASSISTANT SECRETARY OF WAR DEPARTMENT

Robert Oliver of Albany to Succeed William Carey Sanger, Resigned---Oliver Prominent in Commercial Circles and in Military Affairs.

H N & H Sotle Capitol Bldg D H

By Associated Press.

Oyster Bay, N Y, July 13 —At the conference today between President Roosevelt and Secretary Root it was decided to appoint Robert Oliver of Albany to be assistant secretary of war vice William Carey Sanger resigned Mr Sanger has decided to retire on account of the ill health of his wife The appointment has been in contemplation for some time as it has been known that Secretary Sanger desired to retire His resignation was placed in the hands of the president to be accepted as soon as convenient.

By Associated Press

Oyster Bay N Y, July 13—I has not been decided definitely when General Oliver will assume his new office but as Colonel Sanger desires to relinquish his duties as soon as possible the probabilities are that General Oliver will undertake them as soon as he can arrange his business affairs

The appointment of General Oliver it can be said is quite satisfactory to Senators Platt, and Depew who were consulted regarding it

General Oliver served in the civil war as a volunteer officer and subsequently served as an officer of the regular army establishment in both the infantry and cavalry branches For many years he has been identified with the National guard of New York and now is a brigadier general in command of the brigade whose headquarters are at Albany

General Oliver is engaged in the iron business and is quite as prominent in commercial circles as he is in military affairs

In connection with the consideration of appointments it can be said that the president has not thought seriously of naming Charles S Francis of Troy N Y as ambassador to Italy because, so far as the president is aware Ambassador Meyer has no intention of resigning that post The rumor it is said is on all fours with that which indicated that Ambassador McCormick was to retire from St Petersburg to be succeeded by Mayor Low of New York Both stories are hot weather gossip with not the slightest foundation

Secretary Root is still the guest of President Roosevelt He will leave for Washington tomorrow morning He and the president have considered the Alaskan boundary question during his visit The secretary will leave for London on the steamer Celtic on August 23 The sessions of the joint commission will begin on September 3

TENT ENDEAVOR BLOWN OVER AND TWENTY PERSONS HURT

No One Was Fatally Injured---Presence of Mind of a Denver ... and A. M. Ramsey of Chicago ... Prevent a Worse Disaster---Praise Service Followed the Accident.

By Associated Press

Denver, July 13 —The big Tent Endeavor where the Christian Endeavor convention has been held for the past four days was blown over this afternoon at 4 o clock while more than 8 000 people were attending the proceedings

The injured numbered nearly a score but fortunately none of them were fatally hurt The presence of mind of A M Ramsey of Chicago who sprang to a chair and called to the people to hold up the ... and poles undoubtedly prevented danger of suffocation but as it was many women fainted and were extricated from the folds of the canvas with much difficulty

Mrs Whitford Sleep of Denver who was in charge of the St Mark s hospital tent seeing the catastrophe at the big tent telephoned the electric company to shut off the current This prevented any damage being done by live wires for of course they fell with the poles

A feature which showed the religious nature of the participants was seen when the majority were extricated from the canvas fold ... Led by ... delegates all gathered around in the open air and an impromptu praise service was held

Came Without Warning

The convention was in full progress at 4 o clock and although there were signs of rain and some wind was blowing no trouble was anticipated by the management The sides of the tent were up to admit air and this enabled the squall to lift up the big canvas as if it were a balloon The gust of wind which carried over the tent came so suddenly that no preparations could be made to avert the consequences The wind swept under the tent the roof of which immediately bellied out like an immense ... that the smaller poles were being drawn from the ground the guy poles gave the first intimations of danger to the throng they being pulled from the ground Immediately the 8000 people were in a ... which the ... of the wo... accentuated It was then that Mr Ramsey sprang to a chair and loudly called on the men to hold the canvas and catch the large supporting poles as they fell and avert that danger Hundreds of men sprang to their feet and successfully carried out this suggestion and consequently no one was injured in this way.

As the poles fell more than 1 000 people who were seated near the walls of the tent escaped the folds and those people immediately formed themselves into a reserve corps The hospital tent was speedily filled with women who had fainted and those who were suffering from slight injuries

The injured

Mrs Thornburg Denver very bad wound in forehead serious

POPE LEO IS AGAIN IN VERY CRITICAL CONDITION

Has Suffered Relapse and Symptoms Are Regarded as of the Gravest Nature---Increased Weakness Indicates That His Vitality is Fast Diminishing.

By Associated Press

Rome July 14 12 20 a m —Shortly before midnight the pontiff fell into a state of unconsciousness half sleep, half coma He is very restless The heat of the body is high for the patient s organism and appears to be feverish

4 30 a m —Dr Lapponi has succeeded in reanimating the pope with stimulants He also gave him a little nourishment The patient s breathing is again difficult He says he feels very tired

By Associated Press

Rome July 14—2 16 a m — While there is life there is hope ... all the consultation ... Dr Lapponi would give tonight ... admitting that Pope Leo s condition was very grave

The pontiff has suffered another relapse and he lies this morning in a more critical condition than at any time since the middle of the week The semi-comatose condition into which he fell at midnight and the ... state of his heretofore ... mind on his awakening at an early hour this morning accompanied by still greater depression than during yesterday are regarded as symptoms of the gravest nature and as pointing to an imminent dissolution Even in the early evening medical opinion was less pessimistic and Dr Mazzoni thought the end was not within sight I expressed the belief that unless the disease took an unexpected turn there was no reason to apprehend death for two or three days This statement however ... not relieve the anxiety of those who know what powerful stimulants are being constantly administered Some attribute the pontiff s extreme weakness tonight to the excessive mental and physical efforts undertaken yesterday in receiving visitors hearing masses etc

Never before has the weakness progressed as it did yesterday For the first time since the illness the pontiff asked to have the shutters almost closed as the light hurt his eyes and at the same time contrary to his custom he begged to be left as quiet as possible

Another noteworthy symptom of his weakening condition was the docility with which he took his medicine and nourishment Previously indeed during his whole life Pope Leo has been against the prescriptions of doctors or anything that had the aspect of being forced upon him His feeling of fatigue and indifference was interpreted as a sign that his vitality was fast diminishing Late last evening nine cardinals including Satolli and Martinelli, were admitted to the sick room but the pope could not even speak to them, merely giving them his hand to kiss

Dr Rossoni was reported to have said, in an interview yesterday

The pope s pulse reached 60 pulsations and over Just calculate how many times it has pulsated in 93 years and you understand that in his present condition all his organs and the pulse must end by getting so tired that they will stop forever

At the American embassy it was stated that no request official or otherwise has been received up to yesterday for information regarding the pope s condition King Edward has instructed the British ambassador to telegraph twice daily the state of his holiness.

THE POPE BELIEVES HE CAN PREDICT DATE OF DEATH

By Associated Press

Rome July 13 —The pope s condition took a turn slightly for the worse this morning but the change does not excite apprehension of an immediate climax. Last night was rather a sleepless one particularly during the early morning hours The official bulletin frankly confesses that the general condition of the patient is somewhat depressed It developed soon after the issuance of the bulletin that his depression was quite marked and it continued to manifest itself throughout the forenoon at one time assuming an alarming aspect This was when the pope seemed to lose his grasp on tangible surroundings

The illness from which the pope suffered was a kind of mental confusion during which he seemed to lose consciousness of his surroundings while he believed he saw a vision He explained afterwards that he thought he saw an old friend shadow moving about the room and slowly approaching his bed whereupon the pontiff became agitated and called for his valet, Pio Centra saying

Pio who is it? Who is it?

Dr Lapponi and Centra rushed to the patient s bed and soon succeeded in tranquilizing him

At both the Vatican and the house of Dr Lapponi the arrivals of patent medical apparatus of all kinds continue, each accompanied by assurances that his holiness will recover if it is used according to directions From Vienna have come highly perfected machines for producing artificial respiration and for making oxygen The pontiff however has not required the administration of oxygen for the last three days.

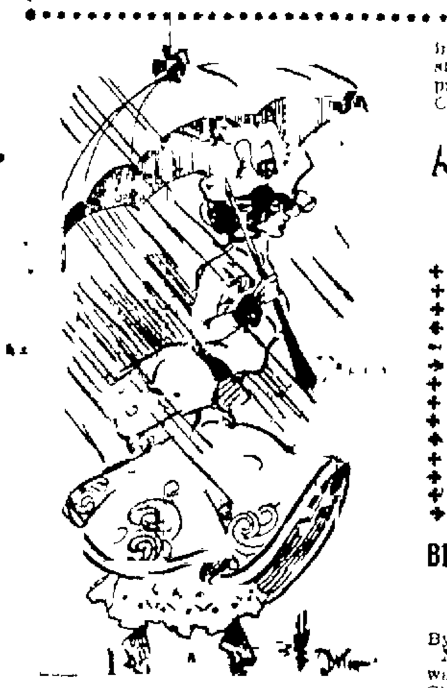

What I need says Pope Leo is already fresh air Besides I should be allowed to rise An old man of 94 should not be kept in bed when without fever

Pope Leo is credited with having said

If I am destined to die from this illness I feel I shall expire on Thursday, the feast day of the Carmelite Madonna whom I especially worship

This presentiment is remarkable because in a certain way it coincides with the prophecy made in the 12th century by St Malachy the bishop of Armagh, who predicted that Pope Leo would be succeeded by a pope symbolizing the motto Ignes Ardens (burning fire) The Carmelite Madonna is the patroness of the Carmelite order which attributes its origin to the prophet Elijah, who ascended to heaven in a chariot of fire Besides a member and protector of this order is Cardinal Gotti who is looked upon as the most likely successor to the pontificate.

BRYAN INTERVIEWED ON THE CLEVELAND MOVEMENT

By Associated Press

Milwaukee Wis July 13—W J Bryan was interviewed here today as to the Cleveland movement Mr Bryan said

It is a comedy as it now stands but a tragedy if it should succeed

Mr Bryan declared that all he desired to see was the nomination by the Democratic party of some one who would stand by Democratic principles

By Democratic he said I mean the principles enunciated at the Kansas City convention the last opportunity the party had to declare the principle on which it stands

Asked if he believed there was any danger of the old line of Cleveland Democrats capturing the next Democratic convention Mr Bryan said I do not think such a thing a probability If there was such a probability danger would be the right word to use in connection with the results it would work to the Democratic party

DIAMOND THEFT WAS REPORTED TO POLICE BUT WAS SUPPRESSED

UPON HER ARRIVAL AT THE ALAMO HOTEL IN THIS CITY SUNDAY NIGHT, MRS M HUTCHINSON OF MEMPHIS, TENN DISCOVERED THAT SHE HAD BEEN ROBBED OF DIAMONDS VALUED AT $1 500

THE MATTER WAS REPORTED TO DETECTIVE ATKINSON THAT NIGHT AT 11 30, AND AS IN THE PICKPOCKET CASES THE MATTER WAS SUPPRESSED BY THE POLICE DEPARTMENT

NEWS OF THE THEFT LEAKED OUT AT THE HOTEL YESTERDAY MORNING CHIEF KING HAS GIVEN OUT NO INFORMATION CONCERNING IT AND, ACCORDING TO REPORT DETECTIVE ATKINSON IS THE ONLY MEMBER OF THE DEPARTMENT WHO HAS BEEN DETAILED ON THE CASE

SUSPICION IN THE CASE, IS DIRECTED BY MRS HUTCHINSON TO A HUNCHBACK WHO CARRIED THE SATCHEL CONTAINING THE STONES FROM THE DEPOT TO THE HOTEL, AND SHE IS CONFIDENT THE ROBBERY OCCURRED IN THIS CITY BETWEEN THE TIME THAT SHE STEPPED OFF THE TRAIN AND OPENED THE GRIP, IMMEDIATELY UPON GOING TO HER ROOM

AT POLICE STATION LAST NIGHT IT WAS STATED THAT NOTHING WHATEVER WAS KNOWN OF THE OCCURRENCE

Mrs Hutchinson was seen at the Alamo last night and said that she had taken her jewels and those of her daughter and put them in a small purse which she placed in a hand satchel just before she got off the train at the depot She said she was certain they were not stolen on the train because she remembered having put them in the purse and then into the satchel which she later handed to the boy with the rest of the baggage They went to the Alamo hotel where they left the boy outside with the baggage He was standing in the entrance to the hotel in the dark, and they argue he had a splendid opportunity to open the satchel and take out the purse during the absence of the women No one else was in the entrance way and very few were on the street at that time of the night The women were gone about five minutes before they returned They had decided to engage rooms and after paying the boy 25 cents for carrying the baggage, dismissed him Mrs Hutchinson said she had forgotten all about the diamonds after she had put them in the satchel and did not think of them again until she and her daughter had been shown to their rooms in the hotel She then opened the satchel but the diamonds were gone and a thorough search failed to disclose them She at once reported the loss to Manager Platun who in turn reported it to the police

No Results Reported.

The boy who carried the baggage is unknown to the police and Detective Atkinson, who was detailed on the case it is said has been unable to locate him The boy is described as being a hunchback about 18 years old, and wearing dark clothing The women paid no particular attention to him except to notice that he was a hunchback

Detective Atkinson was the first one notified of the robbery and he telephoned its details to Chief King No other member of the force, it is said, has been told of it and none of them has been given a description of the suspected thief One of the watchmen at the D & R G depot said yesterday that he had accidentally learned of the robbery through one of the porters of the hotel but too late to make an arrest

I saw the boy in the morning he said but I did not know he was wanted until late in the afternoon The police could make more arrests than they do if it were not for the favoritism shown

In Defense of Boy

One of the hotel officials said last night that while he did not know the name of the boy who is suspected by the police he had seen him a number of times and believed him to be honest He said he believed the diamonds were misplaced and would be found after a thorough search of the rooms and baggage was made I have known the boy who carried their baggage for some time he is poor but I do not believe he would do anything wrong, he said I think the diamonds have been either put away too securely, or misplaced and that they will be found when a more complete search is made Mrs Hutchinson and her daughter have already made a search of their rooms and a partial search of their baggage I think a further search will clear the boy of suspicion

Mrs Hutchinson said, however that the search she had made so far did not hold out much hope of finding the jewels in that manner and she is convinced they have been stolen.

GOVERNMENT TROOPS ATTACK CIUDAD BOLIVAR

By Associated Press

Soledad Venezuela Friday July 10 —Soledad which is a strategic position opposite Ciudad Bolivar on the Orinoco river, has been taken by government troops The Associated Press correspondent who came overland with the government forces from Maturin witnessed the shelling today of the strong trenches constructed along the river front before Ciudad Bolivar by the revolutionists It is believed that the government troops will make a landing on that side of the river upon the arrival of General Gomez the government commander-in-chief who is expected Monday with a fleet which will cooperate in a general attack on the city

It is learned through deserters that General Gomez before entering the valley of the Orinoco defeated the revolutionist leader General Antonio Paredes who surrendered Puerto Cabello in 1899 and who subsequently was captured by the rebels near Irapa General Gomez thus secured the safety of his rear guard

Notwithstanding local public opinion to the contrary, in governmental circles it is not believed that General Rolando who holds Ciudad Bolivar will be able to resist the government s attack

HOME AND FOREIGN PROBLEMS DISCUSSED BY THE ENDEAVORERS

bear a prominent part."

Henry C Cloudy, Winnebago Neb, told "What Christian Endeavor Has Done for the Indian"

"Our Foreign Problems and How Christian Endeavor Helps Solve Them," was discussed by Rev W P Bentley, speaking for China, Rev John H Wyckoff, D D for India and Rev. Willis Hotchkiss for Africa.

The afternoon meeting in Tent Endeavor, devoted to consideration of great problems of the day affecting the nation, was one of the most interesting and enthusiastic of the entire convention

The conclusion of the program had been almost reached when the storm came which brought down the great tent upon the speakers and the audience Rev Dr F D. Power of Washington, D C, presided Rev John Royal Harris of Pittsburg discussed "The Liquor Problem"

Rev. Dr. John Balcom Shaw of New York, in an earnest address urged Christian Endeavorers to stand for study of the bible in the public school George A. Chace of Fall River, discussed "The Rights of Capital and Labor"

Hon Joseph W Folk of St Louis was to have given an address on "How Shall We Purify Municipal Politics" but he was unable to be present and Rev Landrith of Nashville, Tenn, spoke on the question

Delegates from foreign countries outlined "What We May Learn" along social, industrial and religious lines

Rev F J Horsefield of Bristol England the last speaker to be heard on that subject was just closing his remarks when the accident happened which put a sudden termination to the meeting

The final meeting of the convention arranged for this evening at the big tent was abandoned and praise meetings were held in some of the principal churches instead At the Central Presbyterian banners made by Christian Endeavorers in oriental countries, were presented to state Unions showing as large as 10 per cent increase in membership the past year The first prize went to the Nevada union The other state unions receiving banners were Colorado Ohio Utah Louisiana Indiana Missouri Georgia Alaska Washington, West Virginia and New Mexico

INTERDENOM NATIONAL UNION THROUGH CHRISTIAN ENDEAVOR

By Associated Press

Denver, Colo July 13—Rev Dr Francis E Clark president of the United Society of Christian Endeavor, today replied to the statement made by Dr Berry of the Epworth league that union between the different young people's societies is impossible

"If Dr Berry's remarks were correctly reported" said Dr Clark "he must have forgotten that such union had already been accomplished to a very large degree The Christian Endeavor society already unites the young people of 25 denominations in this country alone and more than as many more in foreign countries Several denominations that have distinct young people's societies of their own also unite in this interdenominational union movement, adding the interdenominational name to their own denominational one

"Dr Berry says the denominational young people society is as logical as the denominational church or Sunday school

"So Say I but the denominational Sunday school is not called by some other name to make it distinct from other Sunday schools nor is it kept out of the fellowship of other Sunday schools

"Every Christian Endeavor society is a denominational society of the same denomination as the church to which it belongs and just as loyal to the church as any can be It simply adds broad-minded fellowship to its denominational loyalty The Christian Endeavor movement is in this respect on exactly the same basis as the interdenominational Sunday school movement

"Dr Berry says the Methodist and Baptist denominations would never consent to have their young people furnished with literature by outside persons But will not the Methodist church allow its young people to read any other books or papers beside those its own denomination publishes? No one asks or expects Methodist young people to give up their denominational publications The Christian Endeavor society does not force its literature upon anyone and does not exist to sell its publications

"The petition started at Denver only asks that the young people of all the local churches of all denominations be allowed to have the freedom for fellowship which most of them now enjoy. It will receive hundreds of thousands of signatures Endeavorers refuse to believe that what Dr Berry says will always be true and that union with the Epworth League is utterly impossible Many Epworth Leaguers have already spoken heartily in favor of the petition In Canadian Methodist churches this union has already been largely brought about and Epworth Leagues of Christian Endeavor are found in many of the Methodist churches of the dominion."

A METHODIST BISHOP WHO NEEDS INFORMATION

By Associated Press

Minneapolis, July 13.—Bishop Isaac W Joyce, president of the Epworth League does not believe that the Christian Endeavor suggestion made at Denver for the amalgamation of the Christian Endeavor societies, Epworth League and Baptist Young People's union is practicable Each, he says stands for its own denomination, the Christian Endeavor society being Congregational while the Epworth League represents all branches of the Methodist church in America

PHILIPPINE IMMIGRATION.

By Associated Press

London July 13—The Times correspondent at Hong Kong in a dispatch referring to Collector Shuster's decision that no foreigners under contract can be allowed in the Philippine Islands says this interpretation of the United States immigration law menaces all the foreign business houses and banks which are chiefly British The British firms construe the decision as an attempt to drive them from the islands in order that Americans may secure the trade

English Girls in Paris

A meeting in connection with Miss Leigh's homes in Paris was held yesterday, June 23 at 11 Harrington gardens London under the presidency of the Rev Dr Adams, late chaplain at Christ church Neuilly Mrs Travers Lewis (Miss Ada Leigh,) who founded the Paris homes 30 years ago gave an interesting historical sketch of the work of the last 30 years and in the course of her narrative described the peril of English girls who went over to France to situations provided for them by irresponsible registration agents

There was in England and France a secret system of intercommunication between agents by which English girls were enticed across the channel on the pretext of obtaining remunerative situations in French houses only to find that they had been deceived and thus fall into the hands of vicious men and women Mrs Lewis earnestly pressed upon applicants for situations the need of full and reliable inquiry, and the avoidance of any but the best authenticated registration bureaus

Some tragic stories were told of the fate of English girls who had been trapped into accepting situations only to find themselves betrayed She called particular attention to peculiarities of French law in relation to domestic service, and the power this law gave to mistresses over servants Thus refusal to obey any command whatever in the presence of a witness subjected the delinquent to the possibility of instant dismissal The neglect to apply for wages monthly led to the loss of all arrears of pay The foolish practice of changing the surname which so many English girls in France affect caused them to be lost sight of altogether when they changed their residence or situation

The home erected in 1874 in which Miss Leigh carried on her beneficent work has sheltered 12 400 young women and during the past year 957 have found temporary refuge in the various institutions associated with the home Of these 305 came direct from England the remainder were English girls from various departments in France who had found their situations either distasteful or morally dangerous Associated with the central home in the Avenue Wagram there is a home for daily and unemployed governesses a home for young women apprenticed in shops a home for ladies' maids and nurses seeking situations a sanatorium a free registry for those who are seeking situations and various religious agencies

Miss Leigh appealed for greater help financially and especially for lady helpers permanently and temporarily in the institutions under her care

The Rev J. A Fleming in a short speech supported Miss Leigh's appeal for more workers—(London Daily News

Nevada Has Become a Mining Wonder.

"Yes I confess that I am very enthusiastic over the immediate future of Nevada, and I have many valid reasons for my enthusiasm " said Congressman-elect C. D Van Duzer of that great mineral-producing state

"Nevada is today the mining wonder of the world and Tonapah is the greatest mining camp, although only two years old in the history of mining Vast bodies of ore are being uncovered which rival in size the great Comstock lode and in values the wonderful richness of Cripple Creek

"The recent strike in the Belmont mine uncovered an 18-foot body of ore of the very richest character, over $5 000 a ton There is now in sight conservatively $100,000 000 which will take 10 years to reduce, and each week adds a new producer to the camp There are now 70 companies operating Over 200 men have made fortunes The rapid rise and fluctuations in stock makes the pauper of today the millionaire of tomorrow "

Mr Van Duzer left Washington City five years ago, where he had been the private secretary of Senator Newlands His rise has been rapid He is a graduate of Georgetown, and within three months after he arrived in Nevada he was elected district attorney—then to the legislature and speaker of that body, and then elected to congress Mr. Van Duzer left Washington a poor boy, but returns a rich man—his large mining interests in Tonapah, from which place he was elected to congress, having made his fortune—Washington Post.

COLORADO CITY, JULY 13

They Were Young and Could Not Marry Without Parents' Consent

The fond hopes of two young people were blasted yesterday when Samuel P Kelley stepped up to the counter at the office of County Clerk Reed and made application for a marriage license which was refused him, for the reason that both he and his intended bride were under the age required by statute in this state Kelley is only 19 and his affianced, Miss Alice Smith but 16 Both the young people live in Colorado City

Mr Reed treated the young people very cordially and asked them to go back to their parents and secure their consent and that on receipt of their names to the application he would gladly issue them the little piece of paper that will permit of their temporarily banished hopes being renewed

Steps Taken to Lower the Freight and Insurance Rates

The chamber of commerce of Colorado City met last night at the First National bank and engaged in a warm discussion on the matter of insurance rates for Colorado City which at the present time are regarded as unusually high in view of the rates that are being paid elsewhere It was argued by the members of the chamber of commerce that the rates they are paying are a great deal higher than those paid in Colorado Springs where the protection is no better and the consensus of opinion at last night's meeting was that a re-adjustment of rates be demanded at once and committees were appointed to effect the change

There was also a demand for the re-adjustment of freight rates The merchants of Colorado City feel that they are discriminated against in the matter of freight rates when the rates paid by merchants elsewhere are lower The same committee was given the power to act on this point also

Healthy Old Age

Pe-ru-na Invaluable for the Catarrhal Diseases Peculiar to Old Age.

IN old age no matter how healthy the person may be there is a tendency to coldness sluggishness of the circulation inadequate digestion of food Such a condition is not exactly a disease, but is one of the inevitable consequences of old age Peruna is peculiarly adapted to these conditions which result from old age It spreads a grateful warmth throughout the whole system It invigorates the circulation It increases the digestive powers In short it mitigates all of the symptoms which are directly caused by old age

Peruna never fails to be of inestimable worth to old people It prevents premature wrinkles It gives health and elasticity to the skin and under its use the sallowness and wizened expression disappears It has been stated over and over again in letters from old people that Peruna has made me look twenty years younger

In old age the mucous membranes become thickened and partly lose their function

This leads to partial loss of hearing smell and taste, as well as digestive disturbances

Peruna corrects all this by its specific operation on all the mucous membranes of the body

Mrs Jerusha M Crane Deerfield Mich writes

"I must claim you as a friend for you have cured me of my suffering I cannot speak too highly of you and your Peruna for I believe it has saved my life I was troubled with my head throat, lungs stomach and all going to bladder (systemic catarrh) I am now feeling well thanks to Peruna I can eat anything I want and it does not hurt me I can sleep and get up feeling well and good I am so thankful that I found your Peruna I am almost seventy one years old "

A New Man at 70

Major Frank O Mahoney West Side Hannibal Mo writes

"Up to a few years ago I had not tried to test its medicinal potency but lately when my system needed it your Peruna relieved me of many catarrhal troubles Some two years ago I weighed 210 pounds but fell away down to 168 pounds and besides loss of flesh I was subject to stomach troubles indigestion loss of appetite insomnia night sweats and a foreboding of getting my entire system out of order During some months I gave Peruna a fair trial and it rejuvenated my whole system I feel thankful therefore, for although 70 years old I feel like a young man—Major Frank O Mahoney

One bottle will convince anyone Once used and Peruna becomes a life-long stand-by with old and young

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr Hartman giving a full statement of your case and he will be pleased to give you his valuable advice gratis

An Overzealous New York Cop

A young man from the northern part of the state who recently visited New York on his wedding trip had an unpleasant experience which convinced him that the metropolitan police are energetic at least It was in a tour of Central park The bridegroom had a bad cold While in the park, the hour for his medicine came around He excused himself and took his bottle of Sullivan county cough mixture to the windward side of the obelisk He had just raised the bottle to his lips when a stout policeman ran up and knocked the bottle to the pavement

"I've been watchin' youse for some time said the cop Youse can't drink no dope on my beat "

The young man insisted that he had no intention of committing suicide and finally the policeman consented to listen to reason He even wet his finger in the dark pool on the pavement and tasted the deadly mixture The ingredients were unmistakable and he let the victim go —(From the New York Sun

A SUCCESSFUL COLORADO COLONY.

THE latest report of the Amity Colony, founded by the Salvation Army in the southeastern part of Colorado, presents the proposition in a very attractive light Commander Booth Tucker in discussing the matter stated that the project was inaugurated four years ago with twenty-two families brought out from Chicago and New York These families were provided with a little land, a small dwelling and a few farming utensils for a start These things were not given outright however, but were sold to the colonists on long time and easy payments As is generally known the plan of the Army in this experiment was to see if some definite scheme for relieving the congestion in the cities could not be successfully evolved

The movement has met with a far greater measure of success than its fondest promoters dreamed of Every farmer of the score brought out has made his payments far in advance One man completely paid his debt from the first year's crop All of them are doing remarkably well are securing more land building better houses and broadening out generally

Another interesting feature of the case is the fact that they have already become large patrons of the railroad and last year their freight bills amounted to nearly $50 000 Here is apparently an excellent suggestion for the railroads If they can make it possible for families from the crowded east to secure land and a dwelling these farmers will in time not only pay for their property but will become large patrons of the railways and develop a business which has never existed before We doubt not that in time the railroads with their alertness and far-sightedness will inaugurate colonization schemes on the plan of that begun by the Salvation Army and not do it from motives of philanthropy but as a strictly business proposition that will pay them well in a very few years

BASEBALL LANGUAGE.

IN WRITING up a baseball game now days the sporting editor uses a language or vernacular almost incomprehensible to the average citizen In describing the Sunday games for the Gazette the Omaha correspondent used the following mystic speech

At the second session Companion inherited several severe and painful contusions In the fifth Granville soaked him for a pair and floated in on a couple of long outs In the ninth each wiggler was saluted with a total of eight but Mr McNeeley wiggled with the greatest finesse keeping the hits widely distributed Carter scored the only run for the locals It came in the ninth on a base on balls after two hands were out and Genins two ply jolt The scene that ensued when Bobby percolated over the pan was wild and thrilling in the extreme etc etc

Even a genuine baseball fanatic would have some difficulty in interpreting a description as fantastic as this

The latest wireless newspaper is being issued under the auspices of the Providence R I Journal The news of the day is summarized in the Journal office and sent by wireless telegraphy to Block Island The people of that island therefore are not obliged to wait until the afternoon to get a summary of the news of the day before This makes two wireless newspapers in the country the other one being issued at Catalina Island off the coast of southern California under the auspices of the Los Angeles Times While the experiments as at present conducted make the proposition rather expensive it is not at all improbable with the development of wireless telegraphy many an island off our coasts will have its newspaper served without wires

General R. W Woodbury of Denver was a fine type of a public spirited citizen For many years he was identified with the growth and development of Colorado and took a deep interest in all that pertained to its progress along the best lines He was deeply interested in Denver university and the other educational institutions of the city He was a lifelong friend also of the public library and probably did more than any other one man to place it upon a firm and substantial basis He will be deeply missed in the councils of the citizens of Denver who are earnestly striving for the upbuilding and the betterment of that community

The Boston papers contain the information that no less than 32 000 visitors actually registered during the convention of the National Educational association Nearly all of these were teachers but of course there were others who took advantage of the cheap rates which gave them an opportunity to visit Boston The Denver papers place the Christian Endeavor attendance at 15 000 It therefore appears that the Educational association is twice as valuable merely from a financial point of view to the community that gets it, as the Christian Endeavor gathering

The latest project to relieve the congestion at the New York end of the Brooklyn bridge is a building 45 stories high and towering 645 feet into the sky The lower floors are to be used as entrances for cable cars elevated trains and other steam roads, and the upper stories for city offices The cost of the proposed structure would be a mere bagatelle some $30 000 000 The only persons who would be really satisfied with the scheme would be the city employes on the top floor It would take them half a day to get to work and the remainder of the day to get down again

The interest shown by Hon Bellamy Storer in becoming a life member of the Colorado Springs Chamber of Commerce should furnish a shining example to many well-to-do citizens and business men of Colorado Springs who have not yet seen fit to become members of that body Mr Storer has no financial interest whatever in the city, but has become fond of the Pike's Peak region and likes to spend his vacations here, and hence, took occasion to become identified with the leading business organization of the town.

If the former city clerk of Cripple Creek is guilty of corruption in office as charged he should be vigorously prosecuted Let the authorities of Cripple Creek do their duty and not follow the example of Colorado Springs, which excuses every shortcoming in its officials if it gets "the money back"

The Prince of Wales has been visiting the Kearsarge He probably wanted to see how it felt to be the man behind the gun

"ON PERSONAL GROUNDS."

THE degradation of John A Lee the former lieutenant-governor of Missouri, has been made complete through the publication of certain letters and telegrams written by him to a trust agent in New York city It is clear from those letters that Lee uttered a falsehood when he stated that a certain thousand dollars received from a big New York trust was given him for advertising and write-ups

Lee states in one of his letters "have received $1,000 on personal grounds and told his agent to take up the matter further 'along advertising lines only'" To the average citizen Lee's statement that he had received the $1 000 for advertising in a little country weekly was taken with a grain of salt And on the other hand a candidate for office who would accept a gift of $1 000 from a trust which would be seeking favors at his hand has a very peculiar moral makeup

The war and navy departments have about completed plans for an advisory board consisting of army and navy officers of eminence who will co-operate in the event of war and consider questions of naval policy in time of peace Such a board can be of much service to the heads of the two departments concerned for the time of the secretaries is necessarily largely taken up with matters of detail respecting the actual work of the army and navy This board can look over the whole situation broadly draw its conclusions and make its recommendations which would have mature, practical judgment to recommend them

Russia it is stated relied upon the traditional friendship of the United States to secure approval of the Czar's Manchurian policy Friendship is well enough where it doesn't break treaties but in this case the United States doesn't intend to stand on its own light

The Smith family has received a hard blow The latest Chicago directory shows that the Johnsons are in the lead with 5 586 names while the Smiths only tally 5 374 That's what happens to a family when it spoils a good name and twists it into Smythe and so on

And now a contract has been found in Washington calling for 150 000 pairs of stockings and so worded that only one firm could get it The rule seems to be to sock it to the government anyhow

Former Governor Crane's trip to Oyster Bay may or may not be important The general impression however seems to be that Crane will be deputized to collect the money for the Republican campaign and Hanna will spend it as usual

The Kansas attorneys are in Denver trying to compromise the water suit between the states on the same old basis to wit Colorado may have the water when Kansas doesn't want it Declined with thanks

It appears that the Hon Bathhouse John has quit the bathhouse business for good He will still have plenty of use for water however He is going into the dairy business in Colorado

George Gould thinks that the unbounded prosperity of the country will begin anew this fall Nearly every one will hope that Mr Gould will be a success in his role of prophet

NEW YORK'S SOARING CAMPANILE

The collapse of the campanile at Venice did not [illegible] shucks alongside that designed in connection with the proposed new municipal buildings for this city

Rising 654 feet above the curb line his wonderful New York campanile would be just double the height of the old structure of St Mark's To be sure the Venetians never had a sudden expansion of 140 million dollars in their municipal borrowing capacity to inspire unlimited expenditure for cloud soaring structures and a correspondingly dizzy debt

THE HOPE OF BEATING ROOSEVELT.

Among the jingoes the thoughtless reckless and impassioned the rough rider on horseback is an attractive figure Neither Bryanish nor Tomjohnsonism nor any Yellow Hearst candidacy can make a decisive division among these elements from Roosevelt's ranks

We thoroughly believe that the Democratic party could win the next presidency if it should appeal to the reason and conservatism of the country, both in its platform and the character of its candidates Particularly in the pivotal states there is a grave and growing defection against Roosevelt in his own party His greatest strength lies in states which are hopelessly Republican anyway his weakness in states where he must get a goodly number of electoral votes or go down in defeat

SHORT STORIES

Mrs Malaprop.

A young Philadelphian who has just returned from abroad, traveled on the same steamer with Molly Elliott Seawell the novelist and found her to be a woman with a keen appreciation of humor She told of a very rich but vulgar American woman whose daughter had married into the nobility and who was a veritable Mrs Malaprop

The old lady spent a considerable of her time with this married daughter said Miss Seawell, and when I met her in London she gave me a very pressing invitation to come out and see her at her daughter's country house Then she started to describe what evidently had been an old baronial castle remodeled Only she referred to it as a baronial castle whatever that may be In the hall they have the loveliest pair of ant[illegible] you ever saw she said And the hall has been entirely remodeled

JUDGE CUNNINGHAM TAKES FIRST APPLICATION UNDER THE TORRENS TITLE LAW

"Wherefore applicant prays this honorable court to find and declare the title or interest of the applicant in said land and decree the same, and order the registrar of titles to register the same, and to furnish such other and further relief as may be proper in the premises."

The above prayer closes an application made to the district court yesterday morning by Judge Louis W. Cunningham to have his property at Colorado City registered under the terms of the new Torrens law.

It is the first application filed in El Paso county and is signed by Clyde L. Starrett as attorney in fact for Judge Cunningham, who is now in Cripple Creek. The application is made concerning lots 1 and 2, block 126, of Colorado City, which according to the application, are valued at $749. It is also alleged in the application that there are no incumbrances of any nature on the property, and that all taxes have been paid.

A certified copy of the application was filed with the county clerk and recorder, which acts as a notice to the public that the suit has been filed and prevents anyone from purchasing it without being affected by the outcome of the suit. Several things are necessary to be done, however, before the suit can proceed. The law requires that the district clerk and county clerk shall file additional bonds to be fixed by the court and provides further that a title examiner shall be appointed by the court. The application is directed to Judge Robert E. Lewis, and these matters will come before him for consideration. This means that Judge Lewis will be called on to give the first interpretation of the new law.

JURY SECURED IN KING MURDER CASE

Sons of Colored Man Excluded From Court Room Because of Rumor That They Intended to Avenge the Death of Their Mother by Killing Their Father.

James T. Talbott	C. Hyt
J. P. Waldron	W. D. Smith,
W. M. Losey	C. E. Davis
John Williams	I. A. Youn
J. W. Kappoh	H. A. Mullen
J. M. Julu,	S. H. Rodney

The above is the personnel of the jury which will render a verdict in the Harvey King murder case now on trial in the district court. The box was filled at 3:30 yesterday afternoon and several witnesses were introduced and examined on behalf of the prosecution. The case will be concluded today or tomorrow.

The feature of the trial is the stolid indifference of the accused. Throughout the entire morning session, during the examination of jurors, his countenance did not change in the least except occasionally a faint smile could be seen, as though he contemplated his fate with pleasure. King is charged with first degree murder, and if the jury finds him guilty it can fix his punishment at death. Every juror examined was asked if he had any prejudice against capital punishment. The answer in every case was no. Even this reference to his possible death did not affect the prisoner, but he kept a keen glance on every juror as he was being examined and listened closely to every question.

The first witnesses introduced were the officers who made the arrest. They detailed the occurrences as they had seen them shortly after the shooting occurred.

On the opening of court yesterday morning the sons of the accused were seen in the corridor of the second floor, and owing to a rumor that they intended killing their father if they could get a chance, they were taken into the sheriff's office and searched for any weapons they might have. None was found, however, and the boys were permitted to take seats in the court room. It was later determined to exclude them, however, and in the afternoon, the officers this left. The relatives forming among the negroes of the city and the court room was crowded. ... John Anderson ... who was called on the jury ... reply to a question by ... that he already had his mind made up, and that no amount of evidence could change his opinion. It was afterward learned that he favored a verdict of murder in the first degree and capital punishment.

When the prisoner was asked to say whether he was guilty or not guilty he simply stood erect and looked at the clerk. Starrett who asked him to make his plea. Judge Seeds then instructed the clerk to enter a plea of not guilty and the work of impaneling the jury began.

Preliminary Steps Taken Towards Beginning Work on the Library

Yesterday afternoon at 3 o'clock the committee appointed to take care of matters relative to the Carnegie library met at the office of Mayor Ira Harris and went over a few matters preliminary to the starting of the work on the library.

The only matter on which definite action was taken was the passing on the by-laws by the committee. There were a few changes and corrections made in the by-laws before they were finally approved.

The remainder of the time was spent in talking over matters so as to get a better understanding of what is to be done and the best way of accomplishing it.

Among the matters talked over was the plan on which the architect will be chosen, but owing to lack of information the matters pertaining to this part there was no action taken and until a searching study of the merits of the plans has been made, there will be no decision. It is not given out on authority, but it has been mentioned as the private opinion of some members of the committee that they are in favor of choosing the architect by throwing open the competition to all the architects of the west if not of the whole country.

The general plan of building and the style of architecture are matters that will come within the province of the committee to decide. The Doric style is favored by some while others favor either the Corinthian or the Ionian. It is believed that the Doric as the simplest and most commonly used will be adopted on this style is that used by most of the Carnegie buildings and because of its simplicity it is favored by Mr. Carnegie himself, but in the matter of architecture Mr. Carnegie makes no dictation, and it will be decided either by the architect or by the committee.

After a general conversation, W. P. Kinney was appointed to take up matters relative to clearing away the preliminaries that must be disposed of before actual work can begin.

Death Has Taken Miss Clara Stark, Eighty Years of Age ... Inseparable

Miss Clara Stark, whose death occurred on Sunday last, was an aunt of Mrs. A. J. Blackmer and had made her home with her for the last 15 years. Miss Stark was born in Hanover, N. H., March 6, 1815, and was in her 89th year at the time of her decease.

Always active and industrious and of a most cheerful disposition, she closely endeared herself not only to her immediate family but to a wide circle of friends, both old and young.

The funeral services will be held this afternoon at 5 o'clock from the Blackmer residence, 31 North Cascade avenue, the Rev. Dr. James B. Gregg officiating. Burial will take place at Hope cemetery, Worcester, Mass.

An interesting coincidence, particularly to the older inhabitants, is that news has been received by relatives in this city of the death of Mrs. Elizabeth Farrar, mother of the late Levi B. Farrar, at Waltham, Mass., and the death occurred on the same day as that of Miss Stark.

Previous to her son's death Mrs. Farrar resided in this city and she and Miss Stark were inseparable friends. They were the oldest members of the First Congregational church and enjoyed each other's society greatly. Their friendship was remarkably tender and beautiful and that in death they are reunited is a happy thought to their loving friends.

Mrs. Farrar was the elder of the two, being in her 93rd year. She was of unusually strong character and for years she was chaplain of the Woman's Relief Corps No. 4 of this city. Finally she was elected to the office for life.

Mrs. Farrar was a native of New Hampshire but for years she resided in Concord, Mass., and her funeral will occur this afternoon and interment will be in historic old Sleepy Hollow cemetery, where so many illustrious people have been laid to rest.

First Nighters Pleased With "Chimes of Normandy" Opera

Leslie Stowe, as Gaspard, was easily the star of a splendid performance of Planquette's romantic though slightly weird opera, "The Chimes of Normandy."

The performance was greeted by the best audience that has yet assembled at the Opera house to see a performance by the Columbia Summer Opera company. It was a first-class audience, not only in numbers, but also in its character, and it might be predicted with safety that many will return to see later performances of the same opera by this company.

Stowe as Gaspard, the old miser, was, as stated above, the star of the evening. His acting in the ghost scene in the second act was par excellence and the audience attested its appreciation by three curtain calls. Mabel Day was again accorded the applause that has attested her success in "Said Pasha" and "Fra Diavolo" in previous weeks. Miss Arleta (Perl), the local soprano who made her histrionic debut last night as Germaine, was of course a favorite. Her sweet voice and fair face would win her favor anywhere and especially in Colorado Springs. Although new to the stage she carried out her role excellently. Charles Holmes as Jean Grenicheux was the second prominent character in the performance and more than established his ability as an actor, going so far as to win rounds of applause, while his vocal work was beyond criticism. He sang the tenor solo with purity of tone that was exceedingly pleasant to the ear. Victor Clemence as Henri, Marquis of Corneville, and E. C. Rogers as the Baillie were also prominent characters and acquitted themselves well, as was to be expected from their performances in the other two operas. The chorus work was very good, the tuneful music being sung with good volume and good tone.

It is an interesting opera, well staged and presented by a cast that is far above the average. It will doubtless be greeted by large audiences during the week.

Postoffice Breaks Record on Sale of One-Cent Stamps

Over 2,700 one-cent postage stamps were sold at the postoffice yesterday. According to Stamp Clerk Clare E. Thomas all of these stamps were sold in small amounts. This is probably the July record for one-cent stamps sold at the office. The demand for one-cent stamps is explained by Mr. Thomas by the great number of souvenir postal cards that are being sent to their friends in east by visiting tourists. Yesterday being Monday also served to increase the volume of business as the receipts at the stamp window are nearly always larger after a Sunday than on other days of the week. The mailing clerks at the office state that large numbers of the souvenir cards are being sent out each day. The cards which bear the views of Colorado scenery in the vicinity of Colorado Springs require a one-cent stamp for mailing and if the fad that has apparently struck the tourists continues, the local office will have to send a hurry-up call for more one-cent stamps.

NEGRO DIALECT BY MRS. GIELOW

An evening with Mrs. Martha S. Gielow, a true daughter of the south, who gives her very soul to her art, which is a true portrayal of plantation negro dialect, is one never to be duplicated, so say all who have had that opportunity. Her characters in the quaintness with which she reproduces the many unique characteristics of the "mammy" of the southern homes before the war, second only to the very own mother, fostered tenderly, ... a labor of love.

Mrs. Gielow is both a gentle and charming as her readings from her own books, "Mammy's Reminiscences" and "Old Plantation Days," are inimitable. Original monologues, cradle songs, now daily from her lips, with an artist's insight and expression. Her work is an open field that places her very side of the southern ... one of the most expressive possible.

The management of the Y. M. C. A. of this city have been fortunate in engaging Mrs. Gielow for a recital this evening at 8 o'clock in the auditorium. The prices are 25, 50 and 75 cents. A special rate has been made for the Christian Endeavorers 25, 40 and 50 cents.

The program will be as follows:

"Visit to Mammy's Cabin," original monologue.

"Looking for Mara Willie," original dramatic story.

"The Peanut Jewett," What Malinda Jones and Callie Wilson Sing Dat Time Befo de Wah, original.

"New England Character Sketches," selected.

"Evening on the Plantation," original poem.

"Bley L. Breeze," original nursery scene and cradle song.

"Which Am de Mos' Powerful? de Powder or de Pen?" Edwards.

"Go to Sleep Ch... Mammy's Bies," original lullaby.

SIX [illegible] RECEPTIONS [illegible] VISITING ENDEAVORERS TONIGHT

This evening at 8 o'clock the following churches will hold receptions for visiting Endeavorers in the city
- First Presbyterian,
- First Methodist
- First Congregational,
- First Baptist
- First Christian
- First Cumberland Presbyterian

Christian Endeavorers from all parts of the country are coming to Colorado Springs daily The convention has closed and they are through sightseeing in and about Denver Last night on the 10 30 train on the Rio Grande a goodly number arrived and a fairly large number are expected on today's trains

Many of them will remain here during the heated season and all the summer resorts in the state will perhaps claim a few. E H Livermore of the local association said last night that from now on until all the strangers belonging to the association that are to come here shall have arrived there will be arrangements made for their entertainment and the headquarters will be kept open until such time has arrived

Receptions will be held at six of the largest churches in the city tomorrow evening when all visiting members are cordially invited to come to the church that they are in the habit of worshipping in when at home These receptions will be conducted on the same plan on which the reception to the Illinois delegation was given Refreshments will be served and a program rather informal in its nature will be carried out It is expected that Rev R J Campbell will be present at some of these meetings to make short talks also that some of the other dignitaries and officials of the association will lend their inspiration and their ideas to the occasion

The great convention was not without its romances So far as can be learned there have been two weddings consummated that were planned so as to be coincident to the meeting at Denver One of these was consummated at Los Angeles just before the California delegation left for Denver. M A Smith of the local association and wife were among those who composed the delegation and they declare that their honeymoon has been all that they could expect a honeymoon to be They remarked that their endeavors all through life will be strengthened by reason of the inspiration they received from the trip and at the convention. Another happy couple is W A Cosman and bride of this city Mrs Cosman (nee Patterson) came all the way from New Brunswick to be present at the ceremony which united the couple for life and which was performed last Friday by a local pastor They called at the headquarters at 29 North Cascade last night and received the congratulations of their friends

There was a great deal of excitement among the friends and relatives of the Colorado Springs delegation last evening when it became known that the large tent at Denver had blown down and that certain people were injured Later reports confirmed the report of the accident but do not verify the reports that anyone was seriously injured The accident which occurred at 4 o'clock just as the Rev F J Horsfield of Bristol England was getting well into his address is described by Miss A M Tweed of this city who was a member of the choir

Miss Tweed Describes Accident

Miss Tweed says that there was a very quiet half hour just preceding the collapse of the tent and that because of the heat the sides of the big tent were let down so as to let in the fresh air There was nothing that would serve as a premonition of what was to follow Simultaneously with the conclusion of the work of letting down the sides a gale blew up and the roof of the great tent swelled skyward lifting the center pole from its place in the ground then the whole structure reared slowly and fell to the east The fall was very slow, according to Miss Tweed and all had ample time to get away from the path of the large center pole The officers of the association, of whom were on the stage at the time of the accident made a hasty rush for the basement under the stage, and none of them was at all injured As soon as the tent had fallen a hundred men were cutting rents in it so as to afford an exit for the imprisoned women and children Miss Tweed tells of the fall of the great arc lights that were suspended from the top of the tent and which were the most dangerous feature of the accident These were studiously avoided by the occupants of the tent and there were large vacant circles around the points where it was measured that they would fall The injured man was only slightly hurt one of the tent poles grazing his forehead and inflicting no more than a flesh wound

A late report states positively that no one from Colorado Springs was in the least injured and many who were in the tent at the time state that it seems little short of a miracle that there were no fatalities There were over 7 000 people in the tent at the time it fell

The Railroad Rush

All records for the month of July were broken yesterday at the local joint ticket agency of the Western Passenger association Not only was the heaviest day's business of the season transacted but more tickets were handled on this time of the year than ever before in the history of the local joint agency In addition to the regular summer tourist business which was very large nearly 1 000 tickets of Christian Endeavorers were received These tickets are forwarded from the purchasing points and await the owners who will begin to pour into Colorado Springs from Denver this morning Tickets will be received all this week from all over the east and Joint Agent Mowry now has four assistants engaged to handle the work that is to be done in the next few days It is expected that today's business will be as large as that of yesterday

MOVING PICTURES FOR ENDEAVORERS

If every Christian Endeavorer who comes to Colorado Springs does not go to Stratton park to see the moving picture show it will not be the fault of H H Buckwalter for his program this week is one well calculated to attract immense audiences every night The first picture on the list is one that will bring a touch of sadness to the city's guests It shows the late Rev Dr Clarence E Everman receiving New Year greeting from ex Governor Orman on the steps of the capitol at Denver Dr Everman's sudden death a week ago was a very sad event especially for the Endeavorers for he was one of the most popular of all the head officers The picture on the screen is an excellent likeness of Dr Everman The film is owned by the Colorado Midland railway and was loaned to Mr Buckwalter especially for the benefit of the Endeavorers who will visit Stratton park

The last picture on the program shows President Roosevelt at St. Louis It is one of the popular hits at eastern theaters Several very good comic subjects add to the interest of the show

For the benefit of local people the moving pictures of the fire department run and groups of police and letter carriers will draw hosts of friends

Following is the week's program
- Dr C E Everman secretary of C E, greeted by ex-Governor Orman
- Krousemeyer kids celebrating Fourth of July

SUCCESS CLUB [illegible] DEBATE

An enthusiastic meeting of the T P Day Success club was held at the First Baptist church last night The subject for the evening's debate was Resolved That the Government of England Is Superior to That of the United States in Its Relation to the People The affirmative represented by Alvin Henderson and Clarence Verity won. The negative side was taken by Mark Mohler and George Williams In the open house the debate was also quite spirited and a number of ideas were expressed It was in the open house that the phrase in its relation to the people" was best brought out Arthur Hansen acted as critic and W Brumback read current events

The next meeting will be held two weeks from last night The Government Ownership and Control of the Railroads will be the subject for debate Mark Mohler has charge of the program.

SEVEN CARLOADS OF WATER MELONS WILL ARRIVE TODAY

The shipment of several carloads of Texas watermelons will arrive today The shipment will be the first of any size to arrive this season It consists of seven cars and will come in over the Colorado & Southern The greater part of the melons were grown in the vicinity of Fort Worth and they are reported to be of excellent quality and of a very fine flavor They are of a somewhat later variety than the carload received a couple of weeks ago yet they are considered a much better melon in every way

This consignment will be divided as equally as may be among four or five of the leading commission merchants and they will likely be in the hands of the retailers early in the day.

"BURNING BUSH" SERVICES BEING HELD AT WEBER HALL

MOVEMENT TO ERECT BUILDING

The matter of erecting a building for an art gallery in this city has met with so much encouragement that it now seems altogether likely that such an institution will soon be a part of the many public institutions already established in the city

The proposition to add another story to the old court house and to equip such addition for the gallery does not meet with favor among several of those interested in the movement and they have said that they would contribute materially to the fund for the erection of the new building General W J Palmer and Louis R Ehrich are prominent in the advocacy of the idea of erecting a permanent home of its own for the gallery.

PETITION STARTED BY FORESTRY ASSOCIATION

[illegible] BIGAMY CHARGE [illegible] DIVORCE CLAIMED [illegible]

Edward Meislahn, who a few months ago, figured in a sensational divorce case which was the outgrowth of a bigamy charge made against him, is in the divorce court again

This time it is in reply to the present Mrs Meislahn who is seeking divorce on the ground of cruelty, that he has filed a cross-complaint which is not lacking in sensation

The woman who originally made charges against Meislahn was Miss Alice Kenny of Brooklyn N Y who claimed he had married and deserted her and later had married the present Mrs Meislahn In fighting the case of the former Mrs Meislahn Meislahn claimed that if he had married the woman as she swore he had he didn't know it

Admits Former Marriage.

In the answer filed to the suit of the present Mrs Meislahn he admits his marriage to the Brooklyn woman, from whom he secured a decree of divorce only a few months ago paying for the separation a pretty alimony, out of court

The present Mrs Meislahn alleged in her complaint that she was married to the defendant October 14 1885 that Meislahn was guilty of many and extreme acts of cruelty and that he was endeavoring to dispose of his property in order to defeat the purposes of the suit

In the cross complaint filed yesterday morning Meislahn denies that they are now or ever have been husband and wife denies that he has ever been guilty of any acts of cruelty or of anything that would cause the plaintiff any mental anguish and denies further that he is attempting or has attempted to dispose of his property for the purpose of defeating the plaintiff's suit

These matters are set up by way of answer to the allegations in the complaint the cross-complaint then sets up additional matter upon which the defendant moves that the bill for divorce be dismissed and that the court award him the custody of the children

Startling Allegations

The cross-complaint alleges in support of the denial of marriage that Meislahn when only 18 years old was married to one Alice E Kenny at Brooklyn N Y February 2 1881 that on the threat of his father to disinherit him and his assurance that his marriage was void he deserted her two or three years later and came to Colorado where on October 14, 1885, he went through a mock marriage ceremony with plaintiff, and thereafter, until 1902, lived as husband and wife.'

"During the year 1902," the cross-complaint continues "the said wife came to Colorado from Brooklyn and swore to an information wherein the defendant was charged with bigamy Upon the trial of this charge the court dismissed the case for the reason that it was barred by the statute of limitations

In May of the same year the said Mrs Meislahn of Brooklyn again came to Colorado and instituted proceedings at Denver for separate maintainance asking that Meislahn be compelled to pay $20 [illegible] to the plaintiff in that suit. Through a compromise however Meislahn agreed to pay a certain sum as alimony and the complaint was withdrawn and another filed which asked that a decree of divorce be granted This complaint was sustained by the court and a divorce granted

Says She Knew It

The cross-complaint charges that plaintiff well knew she was not the wife of this defendant and she refused to be lawfully married when this defendant offered to go to the city of Cheyenne Wyo for that purpose

And as a further ground for cross-complaint Meislahn alleges that the plaintiff is addicted to the drink of intoxicants, that she has used them to such an extent that she has become crazy and has attempted to commit suicide taking carbolic acid for that purpose on several occasions

It is further charged that on June 21 the plaintiff partook of so much intoxicating drink at Manitou that she did not know the place of her residence and again on June 23, she was so intoxicated that several neighbors who came to visit her were unable to arouse her except after repeated efforts

The cross-complaint closes with a prayer that the bill filed by Mrs Mary Meislahn be dismissed and the custody of the children awarded to the defendant for the reason he alleged in the cross-complaint that she is an unfit person to have the care and custody of children

Berryhill Selected For Umpire

... Wants to Blame ... President Sexton

President M. H. Sexton of the Western league arrived in the city yesterday at noon from Rock Island, Ill., with his wife and three children and his sister to spend the remainder of the summer. President Sexton has rented a cottage at 319 Jefferson avenue, Colorado City, and he will probably be in the vicinity the greater part of the next two months.

President Sexton was seen on his arrival in regard to the probable outcome of the Kelly-Everitt-Francks soiree in the Des Moines hotel last Thursday. "I have not had an opportunity to investigate the matter thoroughly yet," said President Sexton, "and for that reason I do not wish to make any statement as to what will be done with either the umpire or the players. I regret very much that the trouble occurred, as it is a disgrace to the league. I believe that both sides were to a certain extent to blame, but I will not do anything until I have made an investigation.

"Kelly had no business to go to the hotel and to strike Everitt. It was a clear break on his part. At the same time Everitt was at fault when he swore at Kelly on the field."

President Sexton reiterates his statement at Omaha last week and says that the Kansas City and Milwaukee transfer stories are without foundation.

Teddy Radcliffe is now playing with Denver and President Sexton states that no attempt will be made to force Radcliffe to play with Omaha. "Radcliffe was given to Rourke by Colorado Springs but the player did not wish to go to Omaha. He was then released and when Denver reached Omaha, Radcliffe was again signed for the Grizzlies."

Kelly's ... Coming ... New Umpire ... Be Seen Today

R. D. Berryhill of Chicago will umpire the coming series of games at Boulevard park. Mr. Berryhill arrived in the city yesterday. The fans will not get to see Kelly, the would-be pugilist, work out here at the present time. Kelly has been ordered to Denver and Berryhill will attend to the indicator work here. The latter has only been working in the Western about a week, succeeding Mullane at Omaha. Mullane followed Mesmer, but worked just one day. Berryhill is an eastern man and an ex-player. He has worked over the Atlantic states and is considered an experienced man. Since his engagement by President Sexton he has given good satisfaction and is quite a pleasing substitute for Lee Mesmer.

Kelly will probably be warmly welcomed in Denver. When the roasting he received in Grizzlyville during the first series is considered, it would not be much of a surprise to hear of the irate fans there climbing through the netting after a bad decision and connecting Kelly with sweet repose.

The Millionaires returned home last night and will open with Peoria today. All the boys are feeling in first-class shape and all seem to be trying hard to regain first place. The players do not say much about the scrap in Des Moines but it is hinted that Kelly may think himself fortunate that there were no more of the home team around. Everitt says that while he knows he was wrong in talking to Kelly on the ground the way he did when the umpire asked him to retract and followed the demand with a blow on the mouth, it was more than he (Everitt) could stand. It is further stated by the members of the local team that the washstand in the hotel rendered no assistance whatever in putting Kelly down and out. The statement is due Francks and Everitt.

Sporting Notes

Another match in the doubles of the tennis tournament now in progress at the Y. M. C. A. was played yesterday afternoon. Messrs. Ledge and Thomas won from Bissell and Davy, scores, 3-6, 6-4, 6-4. The semi-finals will be played at 10 o'clock this morning between Messrs. Ledge and Thomas and Armstrong and Stillwell. The finals will be played at 2 o'clock this afternoon, Messrs. Reed and Hummell and the winners of this morning's match will be the contestants.

Thursday and Saturday have been set aside as regular practice days for the Y. M. C. A. baseball team. All of the members of the team are requested to attend the practice to be held this Thursday afternoon at 2 o'clock at Washburn field.

The Y. M. C. A. team has issued a challenge to play any amateur team in the state and are now on the lookout for games. A member of the team stated last night that the stronger the team that replies to the challenge, the better it will suit the association boys.

The date for the proposed game with the Town and Gown Golf club team has not been set but it will probably be played within the next two weeks.

LOU DILLON'S PERFORMANCES THE TALK AMONG HORSEMEN

Lou Dillon's extraordinary performance at Cleveland last Monday will remain the subject for discussion until the Grand circuit opens at Detroit, July 20, unless, as is quite likely, she does something even more sensational in the interim.

It is as yet, too early to say that she is the greatest of trotting mares, but that she is the most remarkable ever seen, as yet, on the harness turf is not to be questioned, and already it is generally being argued that she has a chance, and a good one, to beat Cresceus' world's record of 2:02¼ this season.

When it is recalled that her entire public career includes but two exhibition miles, trotted during the past three weeks, her phenomenal quality is at once self-evident. The word phenomenal has been applied to so many fast horses that it is pretty nearly threadbare—but no other so fitly, so appropriately, can be used to characterize Lou Dillon.

When, June 16, at the Inaugural Cleveland matinee at 2:05, Mr. Billings drove the dainty little chestnut mare a mile in 2:05¼, she did the trial so easily that her owner was satisfied he could have driven her below 2:05, had it been his desire to do so. He was confident that on her next trial she would accomplish this and her time, 2:04¾, shows how wonderfully correct his estimate was.

The fractional time of these two miles is most interesting and deserves study. Here it is:

	Quarter.	Half.	Three-qrters.	Mile.
June 16	:31½	1:03½	1:35¾	2:05¼
June 20	:31¾	1:03¾	1:34	2:04¾

The quarters separately:

	1st q.	2d q.	3d q.	4th q.
June 16	:32	:31½	:32	:29½
June 20	:31¾	:32½	:30¼	:30¾

It will be at once noticed that the faster Lou Dillon went the faster she went. In the first mile Mr. Billings, who never before had driven her out, was, so to speak, "feeling of her."

He only took her a way to the quarter at a 2:12 gait and to the half at a 2:09 rate. Then he turned her loose, and she came home the last half at the rate of 2:03½.

The second miles analyzes differently and brings out conspicuously Mr. Billings' finesse as a reinsman—viz., his judgment of pace. It is possible that one or two of the other amateurs surpass him in certain particulars as race drivers, but in driving a horse a sensational heat, to break a world's record, he has repeatedly shown that he is in a class by himself.

Having learned in the first trial what Lou Dillon's caliber was he drove the second one quite differently, taking her to the quarter at a 2:07 rate, got the half at a 2:07 rate and on home at a 2:03 rate. Beginning at a very high rate of speed he gradually increased it in the most admirable manner, stepping the mare the successive quarters in 0:31¾, 0:32¼, 0:30¼, and 0:30¾, respectively.

Of course neither of these miles constitutes a technical record which is the weakness of the matinee system. As is well known, Mr. Billings intends to give Lou Dillon a record. But should she meet with a mishap before then her name will be accorded no place in the official year book of the trotting turf. The records she has unofficially broken are many and were, both she eclipsed, the most dazzling.

The official wagon record is 2:07¾, by The Abbot. The official wagon record by an amateur driver is Lord Derby's 2:07¼, with Mr. Smathers driving. The official record for a 5-year-old trotter is 2:07½ by Maternal ... The official record by a 5-year-old mare is 2:09¾ by Susie ... The official record by a green trotter is 2:07 by Lord Derby. The official record by a green pacing mare is 2:05½ by Dulce Cor. The official record by a mare to wagon is 2:07 by Lucille, ... driven by Mr. Billings.

Had Lou Dillon's 2:04¾ been technical, all these world's records would have gone glimmering. Besides it may be mentioned that no other trotter has ever beaten 2:07 as early in the season as the month of June.

TOMMY RYAN DOPES ON THE COMING BIG FIGHT

Tommy Ryan spent a little time the other day giving a little dope on the coming Corbett-Jeffries fight.

"I seconded Jeffries in his last fight with Corbett and I know all about this big fellow. I know," adds Ryan, "that Jeffries can lick all these fellows that come to him. That's what he wants. He can beat all the Sharkeys, the Fitzsimmonses and the Ruhlins they send against him. Fitzsimmons always did carry the fight to a fellow. It's the only way he knows how to fight. He's quick and all that, and yet he fights just the way Jeffries wants him to. Now, Corbett is the other way. Corbett's plan of battle shows that he wants a safe getaway after the hook. All his hooks are from about the waist high line with that side turned toward his man and his head going away. Corbett can no more change his style of fighting at this stage of the game than he can fly. He will fight exactly the same way as he did in his other fight.

"I figure the fight this way: Jeffries can win on a knockout and Corbett on a decision and they both have a good chance to do that. If Jeffries is lucky he may win in a hurry by getting Corbett just right. If he don't he'll go along the way he did before and the first thing he knows the fight will be over.

"Corbett kept going away from Jeffries in their last fight. Jeffries kept getting more and more anxious to finish it. He was always trying to get in that right and Corbett made him look like a fool. Corbett was slipping his head and ducking prettily. Part of the time Jeffries had his left glove right on Corbett's breast apparently resting there. But he never hooked it and was forever trying to slip the right in and Corbett had that nicely sized up.

"Finally somebody in Corbett's corner maybe, or Corbett himself, thought he had enough left to go out after Jeffries. He changed his style and began fighting the way he is talking of doing now. Corbett drew back for his hook and turned his chin around. Jeffries can hook from here. He can send in a three-inch hook and can knock a man out with it. He had his glove almost on Corbett's breast and when Corbett drew back his left Jeffries started his left on that short quick hook. It fetched Corbett down for the finishing count.

"Jeffries looked good in that fight when he would settle down and go after his man carefully and steadily. When he got wild he looked like a fool and Corbett had his arms so tired he could hardly lift them after ten rounds of fighting.

"Jeffries knows all this and that is why he wants a quick fellow like Fitzsimmons out there to help him. He ought to work on a man that is going away from him and not one that is coming in all the time. I think Jeffries has forgotten a lot of the fight game he used to know.

"I will certainly see the fight. I will be out there after the Willis fight in Butte.

"Jeffries won't have it easy in a walk unless he is lucky in the getaway."

MICHAEL J. LYNCH HOLDS COLLEGE PITCHING RECORD

Michael J. Lynch, pitcher for Brown university, has just completed the most remarkable record ever made by a college pitcher. In his last game with Columbia he struck out 21 men.

His performance in the box against all of the eastern colleges was certainly wonderful. He let down Harvard with none hits and eight strikeouts; Pennsylvania, 6 hits, 15 strikeouts; Yale, three hits, 11 strike-outs; Georgetown, six hits, 11 strike-outs; Princeton, three hits and 12 strike-outs. In all of these games the opposing teams were shut out.

In the Harvard game he retired the first three batters on strikes. In the game against Williams he retired three batters on nine pitched balls. Not only is Lynch a great pitcher, but a strong hitter. As a fielder he had a percentage of 1,000. He has had offers from most of the professional league managers of the country; one club alone offered him $5,000 a year. He is daily refusing orders to go into the business as a professional, but will remain at Brown university two more years, when he will graduate. He is a six-footer, and weighs 175 pounds.

ELKTON MAKES REPORTS AND ELECTS OFFICERS

Annual Meeting Held Yesterday at Which Interesting Statements Were Made Regarding the Condition of Property---C. J. Cooper Elected a Director.

The eleventh annual meeting of the stockholders of the Elkton Consolidated Gold Mining company was held yesterday afternoon at 2 o'clock in the Mining Exchange building. It was called to order with President J. W. Graham in the chair. Immediately after the election of Dr. Graham as chairman of the meeting, and W. T. Gauss, clerk, the committees on proxies, consisting of Thomas Stark, W. T. Gauss and C. F. Rickey was appointed. Its report showed that there were 1,368,030 shares of stock represented by proxy and 176,030 shares of personal stock represented at the meeting, making 1,544,060 shares out of the 2,500,000 shares of capital stock issued. This was voted unanimously for the following board of directors: J. W. Graham, E. M. DeLaVergne, M. F. Stark, E. P. Shove, C. J. Cooper, W. S. Jackson and Sherwood Aldrich. This is the same board as last year with the exception of Mr. Cooper, who succeeds S. S. Bernard. The new director is a son of former Governor Cooper of Denver, who was a large holder of Tornado stock before the consolidation. Immediately after the stockholders' meeting, the board met and elected the following officers: J. W. Graham, president; E. M. DeLaVergne, vice president and general manager; E. P. Shove secretary and treasurer and Sherwood Aldrich chairman of the executive committee.

Interesting Report.

The report of Sherwood Aldrich, chairman of the executive committee, was a review of the operation of the mine and the affairs of the company from May 31, 1902 to May 31, 1903. Colonel Aldrich explained that "the year dates from May 31, 1902 to May 31, 1903, but in fact we did not take hold of the mine until July 14, so that what I shall say covers only from that date." He then went on to state that the management of the mine had been taken from one man's hands and placed under the direction of an executive committee. Six months previous to the assumption of control by the present board a contract was entered into to buy two large pumps to be delivered July, 1902, but the manufacturers failed to deliver them within contract time, so that a new situation having arisen, when they were ready for delivery, the Elkton did not need them. The contract price was $23,600, but owing to the delay, the Elkton got them for $18,900. Later these pumps were sold for $15,000, as the company's treasury had been depleted by the excessive flow of water which had been ranging from 2,200 to 2,800 gallons a minute.

The report stated that the Elkton had been the first to call a meeting of the mine owners of the district when Colonel Aldrich outlined the plan of the drainage tunnel. Many of the mine owners professed doubt as to the results to be accomplished, so that it was not until after four months' effort that the Elkton committee succeeded in inducing enough mine owners to take up the project of running a tunnel which would be approximately 5,200 feet and which would cut the water course at a depth of 240 feet below the existing water level. Work on this tunnel was commenced January 25, 1903 and has progressed so far that there remains but 650 feet to be run to connect all headings and open the tunnel to the portal.

The Drainage Tunnel.

Colonel Aldrich in this connection reviewed the circumstances which had led the board of directors to conclude that the new drainage tunnel will drain that mine and pointed out the fact that when the Portland was pumping heavily in December, 1902, the level of the Elkton water slowly but surely receded and later when the El Paso attempted its heavy pumping exploits in January of this year, handling 1,700 to 1,800 gallons a minute, a similar effect was noted in the Elkton water level. These and other reasons were given as their ground for subscribing $15,000 toward the drainage tunnel which will be completed August 15.

Continuing, Colonel Aldrich said: "As we reported to the stockholders, February 20, 1903, we found a treasury fund of but $3,062.57 on July 15, 1902. There was some ore but it went to satisfy the unpaid labor bills from July 1 to July 15, 1902, the unpaid taxes, a pump account of 23,600 and a water column costing $6,600, so that it soon became apparent that the company was in debt and the company had to be handled with the greatest care."

The report went on to state that the force at the mine was gradually reduced during July and August, but owing to the fact that this work had to be done slowly, the mine was run at a loss. From September, 1902 to the present time, it was stated, the property had been operated so that each month had shown no loss and in almost every instance a slight gain. Of the $15,000 subscribed toward the tunnel, $9,000 has been paid so that with the completion of the payments on this score the payment of the taxes which fall due in August the company's indebtedness will be little, if any, in excess of $40,000 at that time. It was estimated that there is 1,000 tons of $40 ore broken in the eighth level which can be extracted as soon as these workings are regained. The report concludes with the following statements on the future of the company: "It seems probable that by the latter part of December or early in January of next year, the drainage of the mine will have proceeded sufficiently to enable us to resume mining operations in the eighth level, unless we find conditions that are entirely different from what we expect. Your company should within a reasonable time therefrom have extinguished its indebtedness and commenced to restore its treasury reserve."

Financial Condition.

Secretary-Treasurer E. P. Shove made a report on the financial condition which showed that during the year the mining expenses were $226,276.54, of which $117,139.93 was paid to the lessees as their share of the amount derived from sale of ore. The other items of expense were, mining labor, $38,597.46; hoisting and tramming, $52,967.79; ore sorting, etc., $5,754.42; fuel, $24,889.52; foremen and bosses, $5,183.50; assaying, $3,549.99; water, $3,001.00; superintendent, $4,642.66; mining supplies, $5,347.54, which, with some other smaller items, brought the total expenses up to $226,276.84. The report further shows that the shipping, selling, treatment, freighting and sampling charges amount to $141,962.69. The general expenses include salaries of officers, fire and casualty insurance, telephone and telegraph, interest, home and mine office and miscellaneous expenses, and amount to $17,803.21. Among the sundry expenses is the drainage tunnel assessment of $6,000; legal expense, $662.64 and taxes amounting to $13,552.22.

The receipts for the year were $351,019.70, on ore shipped on company account and by lessees, the latter amounting to over $117,000, as heretofore indicated. The total cash indebtedness at the end of the year, May 31, 1903, was $30,988.81; that is to say that is what the company would have owed if the affairs of the company had been settled on that day and the existing assets applied against the indebtedness. As it is there is a small balance of about $800 cash on hand at the present time.

General Manager's Report.

General Manager De La Vergne made a verbal report stating that he would submit a written one within a few days. He showed that the Wright lease on the Thompson mine had shipped 8,000 tons of ore that had netted the operators $4.85 a ton; on which the company received a royalty of 25 per cent. The Elkton company extracted from the main workings during the year, 4,495 tons, yielding a gross value of $51,267. Mr. De La Vergne stated that when the present management took the mine, the eighth level was the only one having any ore in reserve and as soon thereafter these workings were flooded forcing their abandonment, the year's extraction of ore had, perforce, been from old stopes that had been worked over by the previous management. During the year the company ran a number of crosscuts and drifts amounting to 2,260 feet of work at a cost of $4.41 a foot, but found no ore as a result of this work. An unsuccessful attempt was made during the past 12 months to recover the eighth level but the endeavor was abandoned. The old dump was sold and 26,101 tons of ore were removed, the company receiving 50 cents a ton on the rock removed. This added $13,050.50 to the treasury and provided added dumping ground.

Manager De La Vergne announced that the recent strike made by Lessee Clements was the richest ever opened in the Tornado property. Here, a body of ore two to four feet wide has been uncovered that is running on car shipments from $100 to $150 a ton. The net value to the Elkton company on all ore shipped by the lessees during the year was $9.60 a ton.

At the conclusion of the reading of the reports all of which were adopted and ordered printed, a motion was made by Peyton Randle, a stockholder, indorsing the board of directors and officers in the work accomplished last year. It was carried unanimously. The meeting then adjourned.

With this stockholders' meeting a new order of things was put into effect regarding the publication of the annual reports; heretofore the reports have always been printed and issued on the date of the meeting; but yesterday it was announced that hereafter the reports would not be printed and issued until after the adjournment of the stockholders' meeting in order that any corrections or changes which might result from the general meeting could be embodied, together with the list of the officers and directors chosen.

... STRIKE A WONDER

Lessee Vincent Is Opening a Remarkable Showing of Ore on the Monitor and Proper Claims in Proverty Gulch—Lessee Lewis and Allen Have Opened Four and One-half Feet of Ore.

Special to the Gazette.

Cripple Creek, July 13.—One of the biggest things ever opened in the district is now being developed on the Monitor and Proper claims on Gold hill on one of the blocks lately leased from the Stratton estate to Vincent. He has opened the famous C. O. D. vein. At this time it is a little too soon to make any definite statement in regard to the new find; but from the indications it is enough to warrant well-known mining men in concluding it will prove to be a big bonanza. This strike was first announced several days ago in the Gazette. The initial shipment of two carloads of between 40 and 50 tons, will leave the property tomorrow morning and from assays taken it will return values of better than an ounce to the ton. The work of developing the find is being pushed as fast as possible by the lessee who is operating the claim and he feels with his associates that he has a wonderful proposition before him. At the present time the new find is all of 20 feet in width and every bit of it is ore; while not high grade there is sufficient rich ore in it to make the entire mass a shipping grade. The ore they have saved so far is composed mostly of large boulders dug out of a pit in which they are working. They are just entering the solid formation and as they proceed into the hill the values are becoming better and are running from an ounce up to two ounces to the ton. A strange feature of the new find is that all around the dyke there has been any amount of work done but all seems to have missed this ore body.

Keystone.

Lewis and Allen leasing on the Sitting Bull claim of the Keystone company have opened up to all appearances an entirely new ore shoot. The vein which they have encountered is about four and one-half feet in width and from samples taken indicates that the screenings will run from 10 to 15 ounces to the ton, while the coarse rock will average better than $75 to to ton. The rock is a queer formation and does not show any values whatever but pans liberally in free gold. So far the shoot has been proved some 18 feet long and stoping is now in progress. The lessees are sending out their first shipment today. Another body of ore opened by the same lessees quite recently on the first level is improving steadily under development the vein now being broken is about two feet in width and screenings from this point are showing values in the neighborhood of $20 to the ton. There is also a high grade streak that varies from two to three inches in width but is hardly wide enough to warrant the saving of same.

Lessees Doing Well.

The lessees of the camp are making a larger production at the present time than for many months past. Orwig and others leasing on the Snowstorm claim on Bull hill claim adjoining the Stratton estate will send out a shipment in a few days. Ore has been shipped from this property at various times during the past few years but no great amount of work was ever planned there until recently when the present company secured a bond and lease on the property some 10 days ago.

Hudnutt and associates, operating on a lease of the Moon-Anchor property will send out a shipment tomorrow of 20 tons that will return good values. While Morris brothers and Smith, operating a lease on a portion of the Ida May property have out two carloads of ore that will leave the property tomorrow morning. It is expected to return values of better than two ounces to the ton. From the War Eagle property a portion of which is under lease, Henby and Anderson have out two carloads this afternoon that will leave the property tomorrow morning. These lessees expect to make regular shipments from now on. Their ore is of a fair grade and seems to be improving with every round of shots fired. Operations on the April Fool claim on Squaw mountain are being carried on at two points, one through the bottom level of the Golconda at 660 feet, and the other through the main April Fool shaft. From the former workings a level has been extended into the April Fool ground and developments are being pushed ahead rapidly. In the April Fool shaft drifting is in progress where the lessees are exploiting in two directions.

CENTURION OPENS THE CHAMPION VEIN

A strike of considerable importance is reported from the property of the Centurion company, a local concern operating in Clear Creek county. The tunnel, in a distance of 600 feet, has just cut one of the famous old veins of Clear Creek, called the Champion vein, opening a showing of from eight to 6 inches of ore assaying $17 to $150 a ton; so that it will be seen that a good shipping proposition has been encountered. The company is engaged drifting on this new find which promises to open into one of the big things of that section. Three other veins have been opened which will be worked under leases as it is the intention of the management to confine its principal efforts to exploiting the big find.

The Champion vein is being worked by lessees in upper levels but as their drifts are short they are not out to where the new strike has been made. However, some very rich ore is being extracted from these upper workings. The Centurion company has a good surface equipment consisting of a 60-horse power boiler, two water Leyner drills and accessory equipment. The tunnel will be continued with all speed into the hill to cut the famous Donaldson vein which has been opened in ore directly up to the company lines and at a point about 1,000 feet in from the mouth of the Centurion tunnel. Among the local men back of this company are W. H. Metz, president; Russell Prentice, secretary-treasurer; Herbert Skinner, H. Versteeg and Claud Sachs. These, together with C. V. Barton compose the directorate.

LOCAL BROKER VISITS UTAH MINING CAMP

H. H. Dorsey of the firm of H. H. Dorsey and company, returned yesterday from a visit to Bingham, Utah's celebrated mining camp. Mr. Dorsey was well pleased with the visit and brings the intelligence that Bingham with other districts of Utah, is enjoying a healthy growth which, while not of a boom nature, is nevertheless of a decidedly prosperous nature.

"Bingham," said Mr. Dorsey, "is located 25 miles southwest of Salt Lake City and is one of the big copper districts of the southwest. I do not mean to say that it is a copper country alone, for that is not the case, as its mines furnish gold, silver and lead as well as copper ores. I visited the great Highland Boy mine owned by the Utah Consolidated company and found a plant that was turning out 600 tons a day to its own smelter. The ore is sent down the mountain side by an aerial tram two and a half miles long and is received at the railroad, to be carried to the company's own smelter on the Jordan river. This company is a big one, as can be judged when I tell you it has just paid a dividend of $1.50 a share on the capital stock."

Speaking of the ores, Mr. Dorsey said: "The ores were first oxydized in character and later when this characteristic was lost, the mining men of that section were at a loss to know how to treat the new form of ore, but the problem has been solved and now you see old properties reopening and others consolidating into big ones so that there is a great deal of interest in mining in the old camp. The Utah Copper company is a Colorado Springs concern that is operating a big proposition in the Bingham district and from all that I could learn from reliable sources it promises to be one of the biggest things in the district. Its property is located about a mile and a half from the celebrated Highland Boy mine."

COLORADO SPRINGS MINING STOCK EXCHANGE

The week opened with a listless market, with light sales at generally firm prices. Anaconda sold at 12 for 1,000 shares, Doctor-Jack Pot at 9 for 500, Isabella at 11⅜ for 6,000 and Lexington at 3⅝ for 5,000.

In the prospect department, Banner Gold sold at 1⅞, Cripple Creek Gold Exploration at 2 for 1,000, Gold Knob at 1¾ for 5,000, Little Bessie at 3¼ for 5,000 and Old Gold at 6⅝ for 1,000. Miscellaneous department Mariposa sold at $5 for 5,000 shares and Texas Girl at 5 for 3,000 shares. There was little of promise for the week in yesterday's market.

EASTERN MARKETS

STOCK LETTER.

From J. S. Bache & Co., to Otis & Hough, Bankers and Brokers, 127 Pike's Peak Ave.

New York, July 13.—The forced liquidation of weak accounts together with bear pressure and the attitude of London caused a weak opening this morning. The tone was nervous and feverish and support was not apparent in the early market. St. Paul led the list on selling of a large block of stock. High class securities suffered in the rush to liquidate and support only appeared after an ample concession in prices after the break. The time money market shows a decidedly hardening tendency. Rialy was well sustained at close. Short covering, together with investment buying will have a favorable effect upon the immediate market.

McIntyre & Marshall—The striking feature in the stock market was the liquidation in the Standard stocks and absence of any substantial support. Nearly all stocks on the list sold off one to two points and touched the lowest levels since the depression of last winter. The market was cheered to some extent by the knowledge that the large banking interests had at least decided to protect it, and we think that it was the evidence of this movement which accelerated the covering of shorts and rallied prices so sharply at the close. We regard the rally as mostly in the nature of a natural recovery and brought about chiefly by covering of shorts on the distribution of supporting orders previously referred to from the large banking interests. The failure of any confirmation of the disquieting rumors which had been in circulation had a healthy influence. There is no doubt that the technical speculative position of the market is much improved. Our opinion is that the rally may go some further tomorrow, but after the shorts are in it may prove the old story of the speculation becoming professional, and the market relapse into dull and sagging condition.

GRAIN LETTER.

From Logan & Bryan by Private Wire to Otis & Hough.

Chicago, July 13.—Wheat—The market is about 2½ cents lower than Saturday. It is to some extent a natural reaction after four days of advance. July wheat is at a discount. It is still a broad and active market. The weakness today comes from indifferent cables and fine weather throughout the west and northwest. The latter section is having sunshine and low temperatures which are what is needed. The northwest has been a good seller in this market today. The southwest reports good milling demand, and premiums for cash stuff well maintained. The indications still are that the early movement of the winter wheat crop will be slow, particularly of the soft variety. There is no change in general crop reports. Pacific coast advices continue to indicate a deficient crop and a late one. We still feel that it is unwise to look for profits on the short side. Stocks are very light, and are not likely to accumulate very rapidly. Domestic milling demand will quite likely absorb a large percentage of the movement of the new wheat.

Corn—Market is dull and the tone heavy. There is nothing in the cash situation to support prevailing prices, and with uniformly favorable weather throughout the west, the prospect for the new crop is rapidly increasing. The ownership of corn in this market is, we think, more scattered and in less desirable hands than for some time past. There is some increase of country offerings as the crop prospect improves.

Oats—Prices have a dragging tendency. Weather is perfect for harvest conditions, the cash demand slow and there is nothing to indicate that the movement of the new crop will not be fair and of good quality. We think the ownership of oats in this market is much the same as corn, that it is scattered and for unimportant outside accounts. Still advise selling oats on the hard spots.

Provisions—The market is sick. The action of the large packing interests for some months has been such that outsiders have been discouraged and have largely quit the market. The short interest is consequently at a minimum, and the market has the support of very little outside buying. With large receipts of hogs, poor demand, the accumulating stocks are being left in the hands of the packers. We see nothing at the moment to change these fundamental principles.

BURLINGTON ROUTE TOURIST CAR SERVICE.

The Burlington announces that beginning the 18th inst., a daily tourist sleeper will be operated in both directions between Denver and Chicago on train No. 2 east bound leaving Denver 10 p. m., and train No. 3 west bound leaving Chicago 10:30 p. m. Cars have been definitely ordered into the service and are the best ever built by the Pullman company. A uniformed Pullman porter accompanies each car, and passengers are thus assured the same attention as if they occupied a berth in the standard sleeper, while the rates are much less. For instance, $1 over night, as against $2 in standard; $1.50 Denver to Omaha, as against $3.50 in standard; $2.50 Denver to Chicago, as against $6 in standard, etc. Each berth accommodates two persons if desired without any extra charge.

These cars are not so expensively finished nor so fine to look at as a palace sleeper, but are just as good to ride in. They have clean linen, clean bedding, good ventilation and neat wash and toilet rooms, and are in every way just as comfortable as a palace sleeper. This new feature of travel will be appreciated by the Colorado people who have hitherto been obliged to depend upon the service offered by the through sleepers from California which has been more or less unsatisfactory owing to the uncertainty of making connections in Denver. Now one can go to Denver and be sure of a berth in a nice clean tourist sleeper, because the cars are made up at Denver. Write G. W. Vallery, General Agent, Denver, for reservations.

POSTAL INVESTIGATION.

By Associated Press

Washington July 13—Postmaster General Payne had no developments in the postal investigation to announce today. Charles Hedges superintendent of the city free delivery service against whom charges have been made which are under investigation had an interview with the postmaster general but the latter stated subsequently that there was no change in Mr Hedges case. Mr Bristow had a long conference with Mr Payne regarding the progress of the investigation.

John W Masten assistant superintendent of the railway mail service was examined by the inspectors today. Subsequently the statement was made that the inspectors wanted information about certain matters that occurred while Mr Masten was acting first assistant postmaster general several years ago. At that time Mr Masten approved the contract with a Binghamton company for time clocks and had occasion to pass on other important matters.

TO CLOSE THE GAP.

By Associated Press

Salt Lake July 13—The first step toward closing the gap of 113 miles along the route of the San Pedro Los Angeles and Salt Lake road between Callentes Nev, the southern terminus and Daggett Calif the point from which the Salt Lake road will use the Santa Fe tracks to the coast was taken today when the Empire Construction company organized for the purpose of building the road advertised for bids for the construction of two sections of the road aggregating 8 miles. The bids will be let with the least possible delay.

RETURNED TO WORK

By Associated Press

New York, July 13—Some 20,000 skilled mechanics in the building trades returned to work today under the modified plans of the employers association. The number will be increased to 50,000 by Wednesday unions with that membership having voted to accept the terms of the employers one of the effects of which is to do away with walking delegates and refer all disputes to a joint board of arbitration. With the mechanics a large number of laborers returned to work and operations were resumed by material supply men.

BOOKMAKERS ARRESTED

By Associated Press

Chicago July 13—Twenty constables were engaged for the fourth time by Attorney Cantwell acting for E F Farley the turf man ruled off at Detroit to serve warrants on officials and bookmakers at the Washington park track today. Only one constable was admitted to the track. He served the warrants quietly. The men arrested were Lawrence Young president of the club Secretary James Howard and nine bookmakers. The bookmakers had all been arrested in the previous raids on the track. Those arrested today at once gave bonds and racing went on as usual.

[illegible] CASE

Attorney for the Republicans in Cripple Creek Will Apply to Court of Appeals.

Special to the Gazette

Cripple Creek, July 13—The Republican attorneys who were refused an appeal bond by Clerk Grant of the district court will tomorrow make application to the court of appeals to have the matter modified and will ask that either Mr Grant or any one of the judges of the court of appeals approve the bond.

Mr Grant has heretofore refused to approve the bond although acknowledging that it was a good one, he taking the stand that the Republican mayor and aldermen cannot act for the city without being authorized by the council. If the court of appeals allows the modified application to stand then a bond will be immediately presented for the approval of the judges. In the meantime the aldermanic case stands just where it has been for the past seven days and the Republican members will have to wait awhile before they can hold the council meeting.

Injudicious Target Practice.

Sheriff Robertson and two deputies went to Cameron early this morning and arrested James McManus, a teamster who has been doing some promiscuous shooting with a Winchester rifle. One of the shots punctured the leg of Henry Brown yesterday afternoon. McManus was brought to this city and is confined in the county jail. During Saturday and Sunday he used up some 100 cartridges shooting at everything he saw and in one case he took half a dozen shots at a man who was dumping a car of waste at one of the mines above Cameron, the bullet just missing the miner. He is charged with insanity.

Ewing Given Damages

The jury in the case of [illegible] L Ewing who sued the El Paso Consolidated Mining company for damages on two counts awarded him damages in the sum of $500. The jury went out Saturday afternoon returning with a sealed verdict a few minutes later which was opened by Judge Cunningham when he arrived this morning. Ewing lost former suit in which he sued for damages sustained at the hands of another mine who pushed a car into him. In the case wherein he was allowed damages it was for injuries received to his lungs in an explosion in the second level of the property.

Assay Office Robbed

The assay office of L N Smith on Bennett avenue was entered sometime early this morning the thieves gaining entrance through the rear window. They rifled the shop of $30 in gold buttons and between $400 and $500 in checks. The burglars opened the safe but did not take any of the stocks or valuable papers which were here confining their work mostly to gold buttons and specimens. The police were notified and expect to make several arrests before tomorrow.

Thrown From Horse

Mounted Policeman Jacobs was this morning thrown from his horse under the Poverty gulch bridge of the Midland Terminal railroad and sustained a severe fracture of the right wrist. The bridge is low at the place and it was in bending over to prevent being struck in the head that he lost his balance and fell to the ground. He was given medical attention and removed to his home.

ANTI-ANARCHIST LAW

By Associated Press

Washington July 13—The state department has given notice that it has construed the naturalization law passed by the last congress as requiring it to reject all certificates of naturalization issued after July 1 1902 which fail to set forth the fact that the person naturalized is not opposed to all organized governments and likewise is not affiliated with any organization so opposed also that he does not advocate the killing of officers of the government.

ORANGEMEN CELEBRATED.

By Associated Press

Belfast Ireland July 13—The Orangemen are today engaged in their annual celebration of July 12 in their customary way. About 400,000 participated in the celebration here. The entire police force was on duty and the troops were confined to barracks so as to be ready in case of emergency. At Rostrevor county Down there are 1,700 police and soldiers in the town and vicinity which gives the place the appearance of being in a state of siege. The Nationalists for the most part refrained from counter demonstrations.

PRINCE OF WALES VISITED UNITED STATES SQUADRON

By Associated Press

Portsmouth England July 13—The prince of Wales visited the United States squadron this morning and breakfasted with Rear Admiral Cotton on the flagship Kearsarge. All the ships in the harbor and the channel fleet at Spithead dressed ship rainbow fashion, manned sides and fired a royal salute as the prince boarded the American flagship.

The prince was received on the quarterdeck of the Kearsarge by Admiral Cotton and his officers and the party descended to the admiral's cabin for breakfast at which President Roosevelt and King Edward were toasted.

The deck of the Kearsarge presented a striking scene at the time of the prince of Wales visit, the rain which continued with [illegible] turrets bridges and rails. The [illegible] union jack was flying at the main and the whole ship was dressed rainbow fashion. Crossing the gangway the prince who was [illegible] by Ambassador Choate the earl of Selborne first lord of the admiralty and others passed through the line of sailors with Admiral Cotton and Captain Hemphill standing with their hands at their chapeaus. The drums and bugles sounded four flourishes and in response to the signal from the flagship all the American vessels hoisted the royal standard at the main and fired a salute of 21 guns. As the first gun boomed all the ships in the harbor including the royal yachts and the channel fleet followed.

After saluting Admiral Cotton and Captain Hemphill the prince of Wales shook hands with them. Arriving on the quarter deck the prince saluted the other guests and was led below to the quarters of the admiral and captain which for the occasion were thrown together the tables being tastefully decorated with flowers. The prince sat on Admiral Cotton's right. The other guests at the same table were Lord Selborne Ambassador Choate Admiral Lord Kerr Field Marshal Lord Roberts Admiral Sir Charles Hotham [illegible] Sir Archibald Milne Vice Admiral [illegible] Rear Admiral Henderson Captain Lambton Rear Admiral Sir Edward Chichester Henry White secretary of the United States embassy J R Carter second secretary of the United States embassy Captain Stockton the United States naval attache and other American and British officers. There were no speeches after breakfast, the company merely rising and toasting the king and the president the band in the meantime playing national airs.

[illegible] the prince of Wales expressing a desire to inspect the ship Captain Hemphill [illegible] him along the gun deck and the superstructure and also below. The prince apparently had already some knowledge of the Kearsarge as he was familiar with her characteristics and made [illegible] about his [illegible] At the [illegible] of the [illegible] the prince complimented Captain Hemphill on the splendid condition of the battleship.

The prince is [illegible] knows what he is talking about [illegible] Captain Hemphill [illegible]

The departure of the prince of Wales was marked by the same ceremony as on his arrival. Rear Admiral Cotton saluted and shook hands with the admiral and the officers of the Kearsarge and the captains of the other American ships. As the prince crossed the gangway Lieut Wm A Pratt of the Kearsarge shouted [illegible] cheers for his royal highness, the prince of Wales. The cheers [illegible] simultaneously on the other American ships and the crews of the four vessels heartily [illegible] the prince meanwhile standing in the center of a group of officers with his hand to [illegible] salute.

The [illegible] of the town council of Kingstown Ireland today telegraphed a cordial invitation to the American squadron to visit that place during King Edward's visit to Ireland. Admiral Cotton replied expressing his warm appreciation of the invitation and his deep regret at being unable to accept it as the squadron will sail for Lisbon next Thursday. The British officers gave a ball tonight in the naval barracks in honor of the American visitors. Five hundred persons were present including the majority of the American officers Consul General Evans and the Misses Evans Mrs McCalla wife of Commander McCalla of the Machias Mrs Cowie wife of the paymaster of the Chicago Miss Cowie and Mrs Hedges.

ADJUSTING AFFAIRS OF SHIPBUILDING COMPANY

By Associated Press

New York July 13—A long conference between Receiver Smith and counsel was held at the offices of the United Shipbuilding company today. The conference the receiver said was the one of many which have been held lately in regard to the legal phases of the receivership. He said that he had signed an order terminating the leases of the subsidiary shipbuilding plants. In the organization of the United States Shipbuilding company he said the properties of the subsidiary shipbuilding companies were acquired and then leased back to the subsidiary companies for one year with a provision by which they may be terminated at a five days notice by the parent company. The properties were leased upon a rental to consist of the earnings of the plants.

In order to get control of the properties the receiver has terminated the leases. The order the receiver said did not include the Bethlehem steel plant.

By Associated Press

Wilmington Del, July 13—James Smith, Jr of Newark N J took the necessary oath before Judge Bradford as receiver of the United States Shipbuilding company today and gave bond in the sum of $10,000, the receivership including Delaware only. Mr Smith at once assumed his duties as receiver of the local plant. It will make no difference with respect to the affairs of the plant which will be operated as heretofore.

Minister Conger reports that Mr Lien Fang has been promoted to the position of first secretary and director of the board of foreign affairs vice Mr Na Tung transferred to the presidency of the board of revenue and that Mr Ku Pi Halen has been appointed second secretary or director of the board of foreign affairs.

NEW COMET

By Associated Press

San Jose Cal July 13—Prof Campbell of Lick observatory gives out the following:

The comet discovered by Borelli at Marseilles three weeks ago has been under observation by various members of the Lick observatory staff. It promises to be an unusually interesting object. Its brightness has increased very rapidly until it is now as easily visible as a fourth magnitude star.

This evening observers should have no difficulty in finding it about one or two degrees southwest of the bright star Alpha Cygni. Its motion is carrying it southwestward about five degrees daily.

VIOLENT ROBBERY IN DOME OF STATE HOUSE

Special to the Gazette

Denver July 13—The dome of the state house was the scene of a highway robbery today when Frank Williamson was slugged and robbed of $20. Williamson with a party of visiting Endeavorers climbed to the top of the dome in order to take in the view of the city. While there they saw two tough looking men but paid no particular attention to them. When the parties started down the winding stairway Williamson was the last to go. Just as he placed his foot on the first step the two men seized him. One of them put his hand over Williamson's mouth to stop his outcry while the other went through his pockets.

When the two robbers thought that the way was clear they struck Williamson a blow on the head and then ran down the stairs. Williamson was slightly dazed by the blow [illegible] for help. [illegible] others heard the call and hastened [illegible] the scene. The robbers [illegible] and started down the [illegible] to the elevator [illegible] attempted to reverse the lever but the robbers only let him [illegible] At the basement the two men disappeared [illegible] Williamson was [illegible] good description [illegible] robbers [illegible] for them.

bear a prominent part."

Henry C. Cloudy, Winnebago, Neb., told "What Christian Endeavor Has Done for the Indian."

"Our Foreign Problems and How Christian Endeavor Helps Solve Them," was discussed by Rev. W. P. Bentley, speaking for China, Rev. John H. Wyckoff, D. D., for India and Rev. Willis Hotchkiss for Africa.

The afternoon meeting in Tent Endeavor, devoted to consideration of great problems of the day affecting the nation, was one of the most interesting and enthusiastic of the entire convention.

The conclusion of the program had been almost reached when the storm came which brought down the great tent upon the speakers and the audience. Rev. Dr. F. D. Power of Washington, D. C., presided. Rev. John Royal Harris of Pittsburg discussed "The Liquor Problem."

Rev. Dr. John Balcom Shaw of New York, in an earnest address urged Christian Endeavorers to stand for study of the bible in the public school. George A. Chace of Fall River, discussed "The Rights of Capital and Labor."

Hon. Joseph W. Folk of St. Louis was to have given an address on "How Shall We Purify Municipal Politics?" but he was unable to be present and Rev. Landrith of Nashville, Tenn., spoke on the question.

Delegates from foreign countries outlined "What We May Learn" along social, industrial and religious lines.

Rev. F. J. Horsefield of Bristol, England, the last speaker to be heard on that subject was just closing his remarks when the accident happened which put a sudden termination to the meeting.

The final meeting of the convention arranged for this evening at the big tent was abandoned and praise meetings were held in some of the principal churches instead. At the Central Presbyterian banners made by Christian Endeavorers in oriental countries, were presented to state unions, showing as large as 10 per cent increase in membership the past year. The first prize went to the Nevada union. The other state unions receiving banners were Colorado, Ohio, Utah, Louisiana, Indiana, Missouri, Georgia, Alaska, Washington, West Virginia and New Mexico.

INTERDENOMINATIONAL UNION THROUGH CHRISTIAN ENDEAVOR

By Associated Press.

Denver, Colo., July 13.—Rev. Dr. Francis E. Clark, president of the United Society of Christian Endeavor, today replied to the statement made by Dr. Berry of the Epworth league that "union between the different young people's societies is impossible."

"If Dr. Berry's remarks were correctly reported," said Dr. Clark, "he must have forgotten that such union had already been accomplished to a very large degree. The Christian Endeavor society already unites the young people of 27 denominations in this country alone and more than as many more in foreign countries. Several denominations that have distinct young people's societies of their own also unite in this interdenominational union movement, adding the interdenominational name to their own denominational one.

Dr. Berry says the denominational young people society is as logical as the denominational church or Sunday school.

"So Say I, but the denominational Sunday school is not called by some other name to make it distinct from other Sunday schools nor is it kept out of the fellowship of other Sunday schools.

"Every Christian Endeavor society is a denominational society of the same denomination as the church to which it belongs, and just as loyal to the church as any can be. It simply adds broad-minded fellowship to its denominational loyalty. The Christian Endeavor movement is, in this respect, on exactly the same basis as the interdenominational Sunday school movement.

"Dr. Berry says the Methodist and Baptist denominations would never consent to have their young people furnished with literature by outside persons. But will not the Methodist church allow its young people to read any other books or papers beside those its own denomination publishes? No one asks or expects Methodist young people to give up their denominational publications. The Christian Endeavor society does not force its literature upon anyone and does not exist to sell its publications.

"The petition started at Denver only asks that the young people of all the local churches of all denominations be allowed to have the freedom for fellowship which most of them now enjoy. It will receive hundreds of thousands of signatures. Endeavorers refuse to believe that what Dr. Berry says will always be true and that union with the Epworth League is utterly impossible. Many Epworth Leaguers have already spoken heartily in favor of the petition. In Canadian Methodist churches this union has already been largely brought about and Epworth Leagues of Christian Endeavor are found in many of the Methodist churches of the dominion."

A METHODIST BISHOP WHO NEEDS INFORMATION

By Associated Press.

Minneapolis, July 13.—Bishop Isaac W. Joyce, president of the Epworth League, does not believe that the Christian Endeavor suggestion made at Denver for the amalgamation of the Christian Endeavor societies, Epworth League and Baptist Young People's union is practicable. Each, he says, stands for its own denomination, the Christian Endeavor society being Congregational, while the Epworth League represents all branches of the Methodist church in America.

PHILIPPINE IMMIGRATION.

By Associated Press.

London, July 13.—The Times correspondent at Hong-kong, in a dispatch referring to Collector Schuster's decision that no foreigners under contract can be allowed in the Philippine islands, says this interpretation of the United States immigration law menaces all the foreign business houses and banks, which are chiefly British. The British firms construe the decision as an attempt to drive them from the islands in order that Americans may secure the trade.

English Girls in Paris.

A meeting in connection with Miss Leigh's homes in Paris was held yesterday, (June 23) at 11 Harrington gardens, London, under the presidency of the Rev. Dr. Adams, late chaplain at Christ church, Neuilly. Mrs. Travers Lewis, (Miss Ada Leigh,) who founded the Parisian homes 30 years ago, gave an interesting historical sketch of the work of the last 30 years, and in the course of her narrative described the peril of English girls who went over to France to situations provided for them by irresponsible registration agents.

There was in England and France a secret system of intercommunication between agents by which English girls were enticed across the channel on the pretext of obtaining remunerative situations in French houses, only to find that they had been deceived, and thus fall into the hands of vicious men and women. Mrs. Lewis earnestly pressed upon applicants for situations the need of full and reliable inquiry, and the avoidance of any but the best authenticated registration bureaus.

Some tragic stories were told of the fate of English girls who had been trapped into accepting situations only to find themselves betrayed. She called particular attention to peculiarities of French law in relation to domestic service, and the power this law gave to mistresses over servants. Thus, refusal to obey any command whatever in the presence of a witness subjected the delinquent to the possibility of instant dismissal. The neglect to apply for wages monthly led to the loss of all arrears of pay. The foolish practice of changing the surname which so many English girls in France affect caused them to be lost sight of altogether when they changed their residence or situation.

The home, erected in 1874, in which Miss Leigh carries on her beneficent work, has sheltered 12,400 young women, and during the past year 927 have found temporary refuge in the various institutions associated with the home. Of these 805 came direct from England, the remainder were English girls from various departments in France who had found their situations either distasteful or morally dangerous. Associated with the central home in the Avenue Wagram, there is a home for daily and unemployed governesses; a home for young women apprenticed in shops; a home for ladies maids and nurses seeking situations; a sanatorium; a free registry for those who are seeking situations, and various religious agencies.

Miss Leigh appealed for greater help financially, and especially for lady helpers, permanently and temporarily, in the institutions under her care.

The Rev. J. A. Fleming, in a short speech, supported Miss Leigh's appeal for more workers.—(London Daily News.

Nevada Has Become a Mining Wonder.

"Yes, I confess that I am very enthusiastic over the immediate future of Nevada, and I have many valid reasons for my enthusiasm," said Congressman-elect C. E. Van Duzer, of that great mineral-producing state.

"Nevada is today the mining wonder of the world, and Tonopah is the greatest mining camp, although only two years old, in the history of mining. Vast bodies of ore are being uncovered which rival in size the great Comstock lode and in values the wonderful richness of Cripple Creek.

"The recent strike in the Belmont mine uncovered an 83-foot body of ore of the very richest character, over $5,000 a ton. There is now in sight conservatively $100,000,000, which will take 10 years to reduce, and each week adds a new producer to the camp. There are now 70 companies operating. Over 200 men have made fortunes. The rapid rise and fluctuations in stock makes the pauper of today the millionaire of tomorrow."

Mr. Van Duzer left Washington City five years ago, where he had been the private secretary of Senator Newlands. His rise has been rapid. He is a graduate of Georgetown, and within three months after he arrived in Nevada he was elected district attorney—then to the legislature and speaker of that body, and then elected to congress. Mr. Van Duzer left Washington a poor boy, but returns a rich man—his large mining interests in Tonopah, from which place he was elected to congress, having made his fortune.—Washington Post.

They Say Young and Rather "Marry Without Parents' Consent"

The fond hopes of two young people were blasted yesterday when Samuel P. Kelley stepped up to the counter at the office of County Clerk Reed and made application for a marriage license which was refused him, for the reason that both he and his intended bride were under the age required by statute in this state. Kelley is only 19 and his affianced, Miss Alice Smith but 16. Both the young people live in Colorado City. Mr. Reed treated the young people very cordially and asked them to go back to their parents and secure their consent and that on receipt of their names to the application he would gladly issue them the little piece of paper that will permit of their temporarily banished hopes being renewed.

Steps Taken to Lower the Freight and Insurance Rates

The chamber of commerce of Colorado City met last night at the First National bank and engaged in a warm discussion on the matter of insurance rates for Colorado City, which at the present time are regarded as unusually high in view of the rates that are being paid elsewhere. It was argued by the members of the chamber of commerce that the rates they are paying are a great deal higher than those paid in Colorado Springs, where fire protection is no better and the consensus of opinion at last night's meeting was that a re-adjustment of rates be demanded at once and committees were appointed to effect the change.

There was also a demand for the readjustment of freight rates. The merchants of Colorado City feel that they are discriminated against in the matter of freight rates when the rates paid by merchants elsewhere are lower. The same committee was given the power to act on this point also.

WOMAN FALLS AND SUSTAINS BROKEN ARM

Mrs. A. Lasselter of 530 Brunswick avenue, Colorado City, fell last night while walking through the alley back of her house and broke the ulna bone in her left arm. The broken bone was set by Dr. Morrison and Mrs. Lasselter is resting easily though suffering some pain. The great courage of the woman is attested by her refusal to take any form of anesthetic before the setting of the bone. The bone was broken just above the wrist.

COLORADO CITY BRIEFS

ORDER OF PROTECTION. — The American Order of Protection met last night in the hall and transacted routine business. The meeting was well attended.

SUCCESSFUL TRIP.—B. W. Davis has returned from a fishing trip along the Platte river. He reports lots of fish in that region and several good catches.

REALTY DEAL.—C. E. Pond has sold to Mrs. A. M. Baxter the three-room residence property at 311 Galena avenue for a consideration of $400. The deal was made through the agency of O. W. Lovan.

POLICE COURT.—Four vags and two drunks were the center of attraction in police court yesterday morning. The vags were fined $10 and costs each and the drunks $5 and costs each by Judge Bates. All were committed.

CENTURY CLUB.—The members of the Twentieth Century club were delightfully entertained last night at the home of Mrs. G. W. Cowan on the West side. The evening was spent in playing high-five. Refreshments were also served.

REBUILDING.—Contracts will soon be let for rebuilding of the White House saloon which was damaged by fire a short time ago. In accordance with the instructions issued by Building Inspector John Nelswinter, the new building will be of brick.

YEOMEN.—The members of Pike's Peak Homestead No. 112, Brotherhood of American Yeomen, will hold a social after their regular business meeting tomorrow evening in the Woodmen of the World hall. An interesting program has been prepared for the occasion.

BUSINESS SOLD.—A. W. Tilley, of Mt. Vernon, Wash., has purchased the jewelry business of J. H. Nelson and takes possession of the store on Colorado avenue at once. Mr. Tilley has already brought his wife and two daughters here. Mr. Nelson will continue to reside in Colorado City but will devote his time to looking after mining interests in New Mexico.

COLORADO CITY PERSONALS

MANITOU NEWS NOTES

THREE HUNDRED ARRIVALS AT MANITOU YESTERDAY

The season at Manitou has fairly opened and most of the hotels are taxed to their limit. Yesterday over 300 new arrivals were registered and it is said that a single excursion, consisting of 600 people from the large cities of the east will arrive before the end of the week. This excursion is known as the Gillespie excursion, named after the man who completes the arrangements, and it is made every year to some point of interest in the west or across the waters. The people that compose this party are for the most part professional people, those whose avocation is traveling. They will tarry here for several days before going farther west and it is expected, though it is not authoritatively given out, that they will visit Cripple Creek and all the points of interest locally. Salt Lake City is as far west as they will go.

NEW BILL ENTERTAINS HIAWATHA AUDIENCES

The Hiawatha company comes out with a new bill this week entitled "Martha," which is an entirely new play in five acts. The first rendition of this play was given last evening to a large and appreciative audience and the play has won its way into the hearts of all lovers of opera who have heard it. The same bill will continue during the week. Manager Newcomb says they are attempting to make all the members of the company appear at their best in this play. Miss Emma De Bord, prima donna, appeared in an especially difficult part last evening and won new laurels.

MANITOU PERSONALS

Mrs. John Middleton and party of three are at the Cliff house. They expect to remain in Colorado all summer.

Mrs. C. S. MacCarty of Chicago arrived at the Cliff house yesterday to join her daughter and son-in-law for the summer.

Dr. Jacob Voorsanger and wife of San Francisco are guests at the Cliff house for the summer. The doctor is one of the noted physicians of the coast.

Tice Hutchell is the new chief clerk at the Cliff house. He arrived yesterday morning from Cincinnati, where he has held a similar position at the Gibson house.

Mrs. W. C. Dake and daughter have arrived for the summer and have taken up quarters at the Cliff house. Miss Dake was a popular favorite at Manitou last year.

Miss K. H. Morrison has arrived at the Cliff house and taken up headquarters for the summer. Miss Morrison will be one of the prominent teachers in the Chautauqua Summer school.

Last evening at the Cliff house was given a card party in which several of the guests participated. Tables were provided. Progressive euchre occupied the players for the greater part of the evening.

Mrs. James E. Caldwell, Jr., child and nurse, have arrived to spend the summer. Mrs. Caldwell is a daughter of E. E. Nichols. They will spend the summer at Hillcrest with Mrs. Caldwell's parents.

Walter and Sidney Mandelberg of Omaha are among the late arrivals at the Mansions. They are here for the summer season and it is their intention to make a number of side trips during their stay.

Mrs. Howard Fairfax Lee and Miss Staley of Kansas City are among the new arrivals at the Mansions. They will remain here for the summer and are a distinctively prominent addition to Manitou's society.

Senator A. J. Hopkins and son of Aurora, Ill., returned yesterday morning to the Cliff house and left soon after on a side trip to points of interest between here and the Utah line. They will return Thursday and remain for a week or more.

Theodore Bergen, a popular botanist of the east is registered at the Pittsburg. Prof. Bergen is the author of one of the best text books in botany in use in this country. He is here for a rest and will make a few botanical explorations incidentally. Prof. Bergen is quite well acquainted with the flora of this region, yet he thinks there are several things for him to learn in certain parts of the Rockies.

EARLY OLD AGE

Pe-ru-na Invaluable for the Catarrhal Diseases Peculiar to Old Age.

In old age no matter how healthy the person may be there is a tendency to coldness, sluggishness of the circulation, inadequate digestion of food. Such a condition is not exactly a disease, but is one of the inevitable consequences of old age. Peruna is peculiarly adapted to these conditions which result from old age. It spreads a grateful warmth throughout the whole system. It invigorates the circulation. It increases the digestive powers. In short, it mitigates all of the symptoms which are directly caused by old age.

Peruna never fails to be of inestimable worth to old people. It prevents premature wrinkles. It gives health and elasticity to the skin, and under its use the sallowness and wizened expression disappears. It has been stated over and over again in letters from old people, that "Peruna has made me look twenty years younger."

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

Mrs. Jerusha M. Crane, Deerfield, Mich., writes:

"I must claim you're a friend for you have cured me of my suffering. I cannot speak too highly of you and your Peruna, for I believe it has saved my life. I suffered with my head, throat, lungs, stomach, intestines and bladder, (systemic catarrh). I am now feeling well, thanks to Peruna. I can eat anything I want and it does not hurt me. I can sleep, and get up feeling well and good. I am so thankful that I found your Peruna. I am almost seventy-one years old."

A New Man at 70.

Major Frank O'Mahoney, West Side, Hannibal, Mo., writes:

"Up to a few years ago I felt no need to test its medicinal potency, but lately when my system needed it, your Peruna relieved me of many catarrhal troubles. Some two years ago I weighed 210 pounds, but fell away down to 168 pounds, and besides loss of flesh I was subject to stomach troubles, indigestion, loss of appetite, insomnia, night sweats, and a foreboding of getting my entire system out of order. During some months I gave Peruna a fair trial, and it rejuvenated my whole system. I feel thankful therefore, for although 70 years old I feel like a young man."—Major Frank O'Mahoney.

One bottle will convince anyone. Once used and Peruna becomes a life-long stand-by with old and young.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

An Overzealous New York Cop.

A young man from the northern part of the state, who recently visited New York on his wedding trip, had an unpleasant experience which convinced him that the metropolitan police are energetic at least. It was in a tour of Central park. The bridegroom had a bad cold. While in the park the hour for his medicine came around. He excused himself and took his bottle of Sullivan county cough mixture to the windward side of the obelisk. He had just raised the bottle to his lips when a stout policeman ran up and knocked the bottle to the pavement.

"I've been watchin' youse for some time," said the cop; "youse can't drink no dope on my beat."

The young man insisted that he had no intention of committing suicide and finally the policeman consented to listen to reason. He even wet his finger in the dark pool on the pavement and tasted the deadly mixture. The ingredients were unmistakable and he let the victim go.—(From the New York Sun.
